This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. On December 2, 1901, 2 per cent. semi-annual was paid on the common, and dividends of the same amount were subsequently paid until December 1, 1906, when the semi-annual rate was increased to 2½ per cent. In June, 1907, it was again increased to 3 per cent., placing the common stock on a 6 per cent. dividend basis. The June, 1908, dividend was, however, reduced to 2½ per cent., and this remained the rate until December, 1909, when 3 per cent. was paid. The dividend periods for the common were semi-annual, June (1) and December (1), but from March, 1910, they have been quarterly in March (1), June, September and December, at the rate of 1½ per cent. each, or 6 per cent. per annum.

The Atlanta, Birmingham & Atlantic 1st mortgage, created in 1906, is $30,000,000, authorized. Trustee and agent for payment of interest, Old Colony Trust Co., Boston. The January, 1909, coupon on these bonds was not paid and the bonds have since been in default. Following the default and receivership in January, 1909, a committee was formed to represent the 1st mortgage bonds, due 1936; Chairman, S. H. Fessenden, Boston. Depositary, City Trust Co., Boston. The foreclosure sale of the railroad in March, 1914, was under the mortgage securing these bonds.

The collateral trust 5 per cent. notes created in May, 1906, and renewed in 1910 and again in 1912, are a joint obligation of this company and the Atlantic & Birmingham Construction Co. They were secured by $5,005,000 of the 1st mortgage bonds (additional to the amount outstanding as per above table), and by $17,000,000 common and $5,600,000 preferred stock, as well as by the stocks and bonds of the Brunswick Steamship Co. and $4,000,000 stock of the Woodward Iron Co. Trustee and agent for the payment of interest, Equitable Trust Co., New York. Coupons from May, 1909, to May, 1910, inclusive, were purchased by interests identified with the company. Coupons from November, 1910, to May, 1915, inclusive, were paid, an agreement being made in 1912 on behalf of the Construction Co. guaranteeing the same. In April, 1915, it was, however, stated that the principal of the notes would be defaulted at their maturity on May 1, 1915. The note holders are represented by a committee. Chairman, George C. Clark, New York. Depositaries, Equitable Trust Co., New York; American Trust Co., Boston.

A general reorganization committee was formed: Chairman, Edgar S. Marston, New York. Depositaries, Bankers Trust Co., New York; Old Colony Trust Co., Boston.

The plan of reorganization formulated by the general committee, dated March 21, 1914, provided for the reorganization of the Atlanta, Birmingham & Atlantic Railroad Co., The Georgia Terminal Co., The Alabama Terminal Railroad Co., and The Fitzgerald, Ocilla & Broxton Railroad Co. and the formation of a new company which should issue $3,000,000 1st and general mortgage 30-year 5 per cent. bonds; $400,000 equipment trust notes; $3,200,000 5 per cent. non-cumulative perferred stock and $27,000,000 common stock. Under the terms of the plan the Atlanta & Birmingham 1st mort. 5s, due 1934, were to remain undisturbed, as well as the equipment obligations of the old company. Holders the the Receivers' Certificates were to be offered 60 per cent. in cash and 40 per cent. in the new company's 1st mortgage bonds at 90 for the latter. Holders of Atlanta, Birmingham & Atlantic 1st 5s, due 1936, paying $160 cash for each $1,000 of those bonds were to receive $160 in new preferred and $1,000 in new common stock. Holders of the collateral trust joint notes, paying $134.89 cash for each $1,000 of the notes were to receive $134.89 in new preferred and $843.05 in new common stock. Holders of Alabama Terminal 1st 5s paying $160 cash for each $1,000 of those bonds were to receive $160 in new preferred and $1,000 in new common stock. Holders of Georgia Terminal 1st 5s paying $160 cash for each $1,000 of those bonds were to receive $160 in new preferred and $1,150 in new common stock. The cash requirements under the plan aggregated $4,259,300, including the sale at 90 of $770,000 of the new company's bonds to Kidder, Peabody & Co., Boston, who were to act as bankers and underwriters of the plan. No provision was made in the plan concerning the stock of the old company. The plan also provided for the acquisition of the Fitzgerald, Ocilla & Broxton Railroad by the new company, holders of the $150,000 1st mort., 6 per cent. bonds of that company to exchange same for 70 per cent. of the new common stock.

A corporation chartered by the State of Maryland, by act approved February 28, 1827, also chartered by the Commonwealth of Virginia, March 8, 1827.

Receivers were appointed for the company and its auxiliary companies in 1896, and the property was reorganized without foreclosure in 1899, the road being returned to the stockholders.

The lines of the company extend from Baltimore and Philadelphia via Pittsburgh and Wheeling, W. Va., to Chicago, Cincinnati, St. Louis and Louisville, Ky. It obtains an entrance to New York by trackage from Philadelphia over the lines of the Reading and Central Railroad of New Jersey systems. The property June 30, 1914, comprised the following grand divisions:

	Miles
New York District.....	5.35
Main Line District.....	1,137.61
Wheeling District.....	1,102.86
Pittsburgh District.....	1,247.31
Southwest District.....	985.09
Total.....	4,478.22

The above mileage comprises: road owned, 4,395.29 miles; owned jointly, 4.57 miles; leased 3.68 miles; trackage, 74.68 miles.

In addition to the above the company controls through stock ownership the Staten Island Rapid Transit Railway Co., 10.89 miles, the Staten Island Railway Co., 12.65 miles, and the Sandy Valley & Elkhorn Railway Co., 30.50 miles, and the Baltimore & Ohio Chicago Terminal Railroad Co., 77.13 miles, which are not included in the above mileage.

The company owns all the stock of the Cleveland, Lorain & Wheeling Railway Co. and nearly all that of the Cleveland Terminal & Valley Railroad Co. It owns complete control of the Pittsburg & Western Railway Co. In 1902 this company, in conjunction with the Lake Shore & Michigan Southern Railway Co., acquired large holdings of the stocks of the Reading Company, but in 1904 each company sold part of the same. On June 30, 1914, the Baltimore & Ohio owned the following amounts of stocks of the Reading Company: 1st preferred, $6,065,000; 2d preferred, $14,265,000, and common stock, $10,002,500.

The company also owns a one-sixth interest in the Richmond-Washington Co. It formerly owned a majority of the stock of the Consolidation Coal Co., but sold the same in 1906.

In August, 1909, the Baltimore & Ohio obtained control of the Cincinnati, Hamilton & Dayton Railroad Co. with the right to purchase it in 1916 at a price to be settled upon by arbitrators. See statement of that company.

Locomotives, 2,365; passenger cars, 1,292; freight cars, 88,055; service cars, 3,407. Floating equipment, 146 steamers, tugs and barges. The above includes the equipment of the auxiliary companies, except those operated separately.

Stock..Par $100...Authorized { com., $210,250,000 / pref., 60,000,000 } Issued { com., $152,317,468 / pref., 60,000,000 } $212,317,468

Of the stock, $300,324 common and $1,131,200 preferred is held by the company.

The preferred stock is 4 per cent., non-cumulative. Question having been raised as to whether the preferred was entitled to only 4 per cent. per annum or should share with common in the surplus over that amount, a suit was brought in November, 1900, to test the question, and it was decided that only 4 per cent. could be claimed by the preferred.

The amount of preferred stock originally authorized was $40,000,000, which was subsequently increased to $60,000,000. The common stock was originally $45,000,000, authorized, which was increased to $60,000,000 in February, 1901, to provide for the redemption of the convertible debentures. In November, 1901, it was increased to $100,000,000 to acquire the stocks of auxiliary roads and for improvements. In 1902 it was again increased to $125,000,000. In April, 1900, the common stockholders had the right to subscribe for new common stock at 80 to the extent of one share for each six shares they held. In December, 1901, the stockholders subscribed for $22,537,200 new common at par, and in September, 1902, the stockholders subscribed at par for 30 per cent. of their holdings in new common stock, adding about $42,500,000 to the amount of the latter outstanding. In April, 1906, $27,750,000 additional common was authorized and offered to stockholders at par. In 1912 the authorized common was again increased to $210,-250,000 to provide for the new convertible bonds.

The first dividend after the reorganization was 2 per cent. on the preferred, paid April 1, 1900. Since that time semi-annual dividends on the preferred have been regularly paid on March 1 and September 1, at the rate of 4 per cent. per annum. A dividend of 4 per cent. on the common stock out of the earnings of the fiscal year ending June 30, 1900, was declared payable, 2 per cent. September 4, 1900, and 2 per cent. March 1, 1901, and the common dividends were on the same basis with payments semi-annually in March and September, until September 1, 1905, when the semi-annual rate was increased to 2½ per cent. In March, 1906, 2½ per cent. was also paid, but the September, 1906, dividend was increased to 3 per cent., or 6 per cent. per annum, which remained the regular rate until the March 1, 1915, payment, which was 2½ per cent.

Stockholders of record January 24, 1913, were given the right to subscribe for $63,250,000 4½ per cent. convertible bonds at 95½ to the extent of 30 per cent. of their holdings. See below in regard to the bonds in question.

The general and refunding mortgage was authorized in 1912 for $80,000,000, of which amount $32,000,000 were reserved for retirement of prior indebtedness and $42,000,000 for improvements, etc. Interest on the bonds shall not exceed 5 per cent. The series A bonds of this issue may be called as a whole at 110. Trustee of mortgage, United States Mortgage & Trust Co., New York.

The Upper Cahaba branch 4 per cent. bonds were created in 1905 to provide for the acquisition of coal lands in St. Clair County, Ala., and mature $15,000 semi-annually to August 1, 1925.

The Chattahoochee & Gulf 5s are not an obligation of the Central of Georgia Railway Co.

The $650,000 of 5 per cent. notes, due 1912, are secured by the bonds of the Wadley Southern Railway Co. These notes were temporarily extended on their maturity.

The three classes of preferred income bonds are in order of priority entitled to 5 per cent. each when earned, non-cumulative. In September, 1905, the company made arrangements whereby holders of the income bonds could, on presenting them at the Guaranty Trust Co., New York, Trustee, and paying 50 cents per bond, have coupon sheets for the interest attached to same, bonds thus presented being termed "stamped" bonds. A full account of the interest payments made on the incomes together with the litigation concerning the matter were given in the MANUAL for 1914.

In December, 1911, the protective committees for the different classes of incomes accepted an offer to sell the income bonds they represented at $1,013.76 per $1,000 bond of the 1st incomes, $1,056.79 for the 2ds and $1,095.42 for the 3ds, being at the rate of $950 per bond, with unpaid interest on each class to December 13, 1911, the committees, however, to retain $10 per bond for expenses, etc. Holders who had not deposited their bonds with the committees were offered the same terms upon payment of $20 per bond for the 1sts, $25 for the 2ds and $30 for the 3ds. Under this offer the greater part of the $15,000,000 of income bonds were acquired. The amounts now remaining outstanding are given in the table.

Interest on the company's bonds, except those of the Kineon Coal Co. and the Convertible 4½s is paid at the office of J. P. Morgan & Co., New York. Interest on the convertible bonds and secured notes is paid at the company's office, New York.

The general 4½ per cent. mortgage, created in 1892, is for $70,000,000. Of this $13,000,000 was reserved for retiring preferred stocks and $32,700,000 reserved for prior liens, balance to be

sold at the rate of not more than $2,000,000 per annum, for additions to property, etc. Trustee, Central Trust Co., New York.

The general funding and improvement mortgage was authorized in February, 1909, for $30,000,000. The bonds can be called at 107½ and interest. Trustee of mortgage, United States Mortgage & Trust Co., New York.

The convertible gold 4½ per cent. bonds were authorized in April, 1910, for not to exceed $37,200,000, to provide for the acquisition of the Hocking Valley Railway and Chesapeake & Ohio Railway of Indiana, as well as for improvements, etc. They are convertible into stock at par, at holder's option, between May 1, 1911, and February 1, 1920. Stockholders had the right to subscribe for the $31,390,000 issued at 93½. Trustee, United States Mortgage & Trust Co., New York.

In April, 1911, 1st lien and improvement mortgage bonds for $125,000,000 were authorized at not to exceed 5 per cent., secured by stocks and bonds in the company's treasury, including all the issues of the Chesapeake & Ohio Railway Co. of Indiana. None of these bonds have been issued except as collateral for the company's notes described in the following paragraph:

In March, 1914, the company sold to a syndicate $33,000,000 of an authorized issue of $40,000,000 5-year, 5 per cent., secured gold notes, due June 1, 1919, interest June and December, payable without deduction for taxes, except United States income tax. The notes are redeemable on 30 days' notice at 101 before June 1, 1916, and at 100 thereafter. They are secured by $37,123,000 1st lien and improvement bonds at 87½ per cent. of their par value. The trust agreement provides that during the life of the notes the company shall expend $17,000,000 out of earnings for improvements, etc., such payments to be $2,000,000 for the year ending June 30, 1915; $3,000,000 for 1915–16, and $4,000,000 for each of the three succeeding years. These appropriations are to have precedence over dividends on the stock. The purpose of the 5-year notes was to retire the $28,500,000 notes due June, 1914, and to provide additional capital.

This company, with the Cleveland, Cincinnati, Chicago & St. Louis Railway Co., controls the Louisville & Jeffersonville Bridge Co., and is joint guarantor (to extent of one-third) of the $4,500,000 4 per cent. bonds of that company.

This company is one of the joint guarantors of the bonds of the Richmond-Washington Co. See statement of that company.

In addition to the mileage given above the company owns 16.90 miles leased to the Vandalia Railroad Co. On account of the embarrassment of the St. Louis & San Francisco Railroad Co., and the consequent impairment of the company's credit, Receivers were appointed for the Chicago & Eastern Illinois Railroad on May 27, 1913.

In 1902 an extension to Pana, Ill., was built and contracts were effected for trackage over the Cleveland, Cincinnati, Chicago & St. Louis, from Pana to East St. Louis, connecting this company's lines and those of the St. Louis & San Francisco Railroad Co. The company uses the Chicago terminal of the Chicago & Western Indiana, and has an interest in the latter company.

The preferred stock is 6 per cent., non-cumulative. In July, 19, 1911, the preferred stock authorized was increased from $10,000,000 to $15,000,000. In July, 1911, a plan to absorb the Evansville & Terre Haute Railroad Co. was announced, that company having $3,987,383 common and $1,283,333 preferred stock. The merger included giving Chicago & Eastern Illinois preferred for said stocks in the proportion of 83⅓ per cent.

for the Evansville & Terre Haute common, and par for its preferred, the preferred to have the option until January 1, 1912, to exchange that stock at par for Evansville & Terre Haute refunding bonds. This involved an increase of $3,209,300 in this company's preferred stock, and made the total outstanding amount thereof, $12,191,700.

Transfer Agent, Metropolitan Trust Co., New York. Registrar, Central Trust Co., New York.

The earnings for 1910-11 and subsequently include the operations of the Evansville & Terre Haute Railroad for the full years.

The deficit for the year ended 1912-13 is in part accounted for by the fact that items aggregating $920,000 were being received in suspense or other accounts, with the view of charging same to operation in monthly instalments. The Receivers charged some $645,000 of said amount to operation in May, 1913, and $275,000 thereof to profit and loss. Charges in 1913-14 include $510,570, being the amount of the July, 1914, interest on the refunding and improvement mortgage and other bonds, due at that period, which interest was not paid on the bonds under an order of the Court.

In 1897 a general mortgage for $165,000,000, due November, 1987, to refund existing bonds, was authorized to bear such interest, not over 5 per cent., as may be deemed advisable at time of issue. A sufficient amount was reserved to retire $131,645,000 of underlying obligations, and the remainder was to be used for additions and improvements, the company being entitled to $1,000,000 per annum thereafter for betterments. The first $31,316,000 of bonds issued under the mortgage bore 3½ per cent. interest. In November, 1910, the company sold $15,000,000 additional of 4 per cent. bonds, in April, 1911, $7,500,000 of same and in May, 1914, $8,054,000 4s, which are "stamped" that the company does not assume payment of the Federal Income Tax. In December, 1914, $10,000,000 5 per cent. were sold, the same being also "stamped" that the company does not assume payment of the Federal Income Tax thereon. Trustee of mortgage, United States Trust Co., New York.

In 1882 this company acquired a controlling interest in the stock of Chicago, St. Paul, Minneapolis & Omaha Railway (see statement of that company), and issued the 5 per cent. debenture bonds due 1933 in payment for same.

On February 28, 1915, the company had in its treasury or due from trustees bonds of its own issues to the amount of $9,997,000, while $3,264,000 more were held in sinking funds, these being in addition to the amounts outstanding given above.

The Milwaukee, Sparta & Northwestern 1st mortgage bonds are guaranteed principal and interest by this company and have been assumed by it.

CINCINNATI, HAMILTON & DAYTON RAILWAY CO.

A corporation formed under the laws of Ohio in 1895, being a consolidation of the railroad company of same name with the Cincinnati, Dayton & Ironton Railroad Co. and the Cincinnati, Dayton & Chicago Railway Co.

In July, 1904, this company acquired control of the Pere Marquette Railroad Co., the Chicago, Cincinnati & Louisville Railway being acquired jointly with the Pere Marquette. In January, 1905, the Pere Marquette was leased to this company. See below.

In September, 1905, a controlling interest in the company's common stock was acquired by the Erie Railroad Co., but in November, 1905, the vendors reacquired the stock.

On December 5, 1905, a Receiver was appointed for the Cincinnati, Hamilton & Dayton Railway and the Pere Marquette Railroad, and in October, 1907, the Pere Marquette lease was abrogated. On January 1, 1907, the Chicago, Cincinnati and Louisville Railway was returned to its former owners.

See below for details as to the plan whereby the company resumed possession in August, 1909, the reorganization being without foreclosure. The arrangement involved the management of the property by the Baltimore & Ohio Railroad Co., and that company acquired the right to take over a controlling interest in the stock on July 1, 1916, at a price to be fixed by arbitration. The controlling stock is, meanwhile, held in a voting trust with the President of the Baltimore & Ohio as one of the three trustees.

On July 2, 1914, Receivers were appointed for the company, following a default in the July interest on certain bonds of the system. In February, 1915, a separate receivership was ordered for the Cincinnati, Indianapolis & Western, one of the leased properties of the system.

Road owned, Cincinnati to Dayton, O., 59.85 miles; Dayton to Ironton, O., 160.12 miles; Dayton to Delphos, O., 94.62 miles; total owned, 314.59 miles; leased, Dayton & Michigan Railroad, Dayton to Toledo, 141.15 miles; other leased lines, 2.83 miles; total leased, 143.98 miles; controlled, Cincinnati, Indianapolis & Western Railway, Hamilton to Springfield, Ill., and branches, 360.50 miles; Cincinnati, Findlay & Ft. Wayne Railroad, 91.39 miles; other branches, 59.82 miles; total controlled, 511.71 miles; trackage, 44.99 miles; total operated, 1,015.27 miles.

The company owned $11,000,000 stock of the Pere Marquette Railroad Co., but in 1911 sold the same. It has a joint interest in the Dayton & Union, 47 miles, which is operated by the

Cleveland, Cincinnati, Chicago & St. Louis. In 1904 the company acquired traffic rights and the use of the terminals of the Toledo Railway & Terminal Co., in connection with the Pere Marquette. The company has a joint interest with the Southern Railway in the control of the Cincinnati, New Orleans & Texas Pacific Railway. Locomotives, 232; passenger cars, 200; freight cars, 9,701.

Stock...Par $100....Authorized { com., $8,000,000 / pref., 8,000,000 } Issued { com., $8,000,000 / pref., 248,575 } $8,248,575

The preferred stock is 5 per cent., non-cumulative. The company, prior to the readjustment effected in 1909, had $1,074,500 of old preferred stock 4 per cent. cumulative. It also had $6,925,500 new preferred 5 per cent. non-cumulative.

In July, 1904, the company offered the holders of its 4 per cent. preferred $100 per share, and those of the 5 per cent. preferred $110 per share for their stock, it being proposed to retire the preferred stocks. Under this arrangement all the $1,074,500 4 per cent. preferred and the greater part of the 5 per cent. preferred stocks were acquired. The stocks thus purchased by the company, amounting to $7,751,425, were deposited as part of the collateral for $15,000,000 of 4½ per cent. collateral gold notes issued in 1905. This company guarantees 8 per cent. on the $1,211,250 preferred stock, and 3½ per cent. on $2,401,950 of the common stock of the Dayton & Michigan and 5 per cent. on $100,000 of Home Avenue Railroad common. This company guarantees principal and interest of $933,000 of the Indiana, Decatur & Western 5 per cent. 1st mortgage bonds, and also guarantees principal and interest of the Cincinnati, Indianapolis & Western 4 per cent. first refunding mortgage bonds.

The readjustment plan agreed upon in June, 1909, included the creation of a new 1st and refunding mortgage for $75,000,000 and a new general mortgage for $20,000,000. Holders of the $15,000,000 of 4½ per cent. notes, received for each $1,000 note, $60 in cash and $1,000 in new general 4½ per cent. mortgage bonds, interest depending upon earnings until July 1, 1911, when interest became 1 per cent. fixed and 3½ per cent. income until July, 1914, then 3 per cent. fixed and 1½ per cent. income until July, 1916, and 4½ per cent. fixed thereafter. Nor was any made in 1913 or 1914. It was provided that $12,500,000 of the $14,500,000 of 1st and refunding mortgage bonds immediately issuable under the plan should be guaranteed by the Baltimore & Ohio, the amount

in question being to retire Receivers' certificates and other indebtedness, provide working capital and pay for urgent improvements. There were also $13,000,000 of the 1st and refunding 4s held as collateral for the $11,557,000 of 4 per cent. collateral trust purchase money notes, this collateral being substituted for old refunding mortgage bonds (which have been cancelled) and other securities. The Baltimore & Ohio guaranteed the $11,557,000 of 4 per cent. notes which were actually issued, principal and interest; the same falling due July 1, 1913, were retired by the Baltimore & Ohio Co.

The Dayton & Michigan consolidated mortgage, 5 per cent., bonds for $2,728,000 matured January 1, 1911, but were extended for 20 years to 1931, at 4½ per cent., the company being entitled to redeem them on January 1, 1917, or any subsequent interest period at 102½.

The Cincinnati, Hamilton & Dayton Railway Co. guarantees the bonds as to both principal and interest by indorsement.

Of the Indianapolis, Decatur & Western 1st mortgage 5 per cent. bonds due January, 1935, $933,000 are guaranteed, principal and interest, by the Cincinnati, Hamilton & Dayton Railway Co. The remaining $2,229,000 of these bonds are not guaranteed. They are all redeemable at 110 on eight weeks' notice and can be drawn by lot.

Interest due July 1, 1914, on the unguaranteed 1st and refunding 4s, the Cincinnati, Indianapolis & Western 1st and refunding 4s, and the Indianapolis, Decatur & Western 1st 5s was defaulted. A protective committee for the 1st and refunding 4s and the Indianapolis, Decatur & Western 1st 5s was formed. Chairman, William A. Read, New York. Depositary, Equitable Trust Co., New York. These notes of the Construction Co. were deposited as security for $3,500,000 6 per cent. notes of the Denver Railway Securities Co., due May 1, 1912, the payment of which was defaulted. The noteholders of the Security Co. were represented by a Committee.

In September, 1912, the noteholders' committee made an agreement with a syndicate headed by Newman Erb, New York, for the reorganization of the Railway Co., the syndicate to supply $1,000,000 cash for improvements, etc., the claims of the Securities Co. The plan provided for liquidation of claims against the Railway Co. and the Securities Co., through the acceptance of new securities of the present company. A decree of foreclosure was entered in January, 1913, and the property was acquired by the present company.

In May, 1913, at a special election, the citizens of Denver approved a plan to build a tunnel through the Continental Divide, the city to provide two-thirds of the estimated cost of $4,500,000 and the company the remaining one-third. The tunnel was to be leased to the company for the interest on the bonds issued by the city and a sinking fund of 1 per cent. per annum. The Supreme Court of Colorado in July, 1914, declared the proposed bond issue by the city to be illegal.

The company is a reorganization of the Railway Co. of the same title, which was a Michigan corporation formed in 1905 as successor to the Detroit Southern Railroad Co., the property of which was sold under foreclosure May 1, 1905. See MANUAL for 1909. The present company began operating the property March 1, 1914.

Road owned, Tecumseh, Mich., to Jackson, O., 273.35 miles; Delray, Mich., to Dundee, Mich., 39.60 miles; Bloom, O., to Ironton, O., 30.81 miles; branches, 52.50 miles; total owned, 396.26 miles; trackage, Detroit to Delray, Mich., 6 miles; Dundee to Tecumseh, Mich., 15.70 miles; Jackson, O., to Bloom, 23.33 miles; total operated, 441.29 miles.

Interest, due February 1, 1908, on the consolidated mortgage bonds of the predecessor company—the Detroit, Toledo & Ironton Railway—having been defaulted, receivers for that company were appointed in February, 1908. On April 17, 1913, the Ohio Southern Division was sold under foreclosure of the 1st mortgage on that portion of the property. On June 28, 1913, the remainder of the road was sold under foreclosure of the general lien and divisional mortgage. The committees representing the bondholders purchased the respective properties at the sales.

The committees representing the Ohio Southern 1st mortgage bonds and the general lien and divisional mortgage 4s having agreed to combine for the purpose of a reorganization, rescinded the plans they had formulated in the early part of 1913 for the separate reorganization of the two parts of the system covered by the respective mortgages. A new general reorganization committee was thereupon constituted: Chairman, William Church Osborn. Depositary, New York Trust Co., New York. This committee, on December 15, 1913, issued a reorganization plan which provided for the formation of the new company. The details of the plan with reference to the assessments on the old bonds and the exchange thereof for the new securities are given below. The plan included raising $4,000,000 of new capital from the assessments, a syndicate being formed to subscribe for the new securities not taken up by the holders of the old company's bonds.

ERIE RAILROAD CO.

A corporation formed under the laws of New York, November 13, 1895, as successor to the New York, Lake Erie & Western Railroad Co. The latter was foreclosed November 6, 1895, under reorganization and the property transferred to this company, December 1, 1895.

Road operated June 30, 1914, 2,257.40 miles, of which 1,673.40 miles are owned or controlled by ownership of entire capital stock; 160.31 miles are controlled through ownership of a majority of stock; 276.96 miles are leased and 146.73 miles are trackage. In addition, 37.87 miles are controlled but operated independently. The company also has restricted trackage on 131.20 miles. It owns, but leases to other companies, 15.12 miles, and leases, but re-leases to other companies, 2.35 miles. Total of system, 2,443.94 miles. The company controls by stock ownership the New York, Susquehanna & Western Railroad, 238.77 miles, as well as the properties of the Pennsylvania Coal Co. and the New York, Lake Erie & Western Coal and Railroad Co. The company also has a one-fifth ownership in the Chicago & Western Indiana Railroad Co. The Pavonia Ferry between New York and Jersey City is owned.

Between 1907 and 1910 the company completed the Erie & Jersey Railroad, Highland Mills, N. Y., to Graham, N. Y., 38.6 miles, and the Genesee River Railroad, Cuba, N. Y., to Hunts, N. Y., 32.60 miles, in pursuance of plans for a reduction of grades to a standard of 2 per cent. eastbound and 6 per cent. westbound. In 1910 it completed a four-track open cut through Bergen Hill, Jersey City, supplementing its old two-track tunnel at that point. Further extensive work involving reduction of grades and construction of second tracks has continued, and at the end of 1914 all but some small sections had been double-tracked on the company's line from New York to Chicago.

Locomotives, 1,501; passenger cars, 1,247; freight cars, 52,970; service cars, 2,906. Also 9 ferryboats, 8 lake steamers and numerous steamboats, tugs and barges. The foregoing includes locomotives and cars held under car trust agreements.

The New York, Lake Erie & Western Railroad Co. leased the New York, Pennsylvania & Ohio Railroad Co. (Salamanca, N.Y., to Cleveland and Dayton, O.). It also controlled the Chicago & Erie Railroad. Under the reorganization plan the mortgages on the New York, Pennsylvania & Ohio were foreclosed and that road was reorganized as the Nypano Railroad Co., subject to $8,000,000 prior lien bonds of the old company. All the stock and bonds of the Nypano Co. were transferred to this company, which also owns the entire stock of the Chicago & Erie Railroad Co.

The company controls the New Jersey & New York Railroad, 37.87 miles, operated separately. The New York & Greenwood Lake Railway and branches, 54.27 miles, is leased for rental equal to its fixed charges. In January, 1898, control of the New York, Susquehanna & Western system was acquired and the preferred stock of that company was exchanged at 90 for Erie 1st preferred and its common stock at par for Erie common.

In January, 1901, the company purchased the entire capital stock of the Pennsylvania Coal

Co., paying for the same $32,000,000 in its collateral trust fifty-year 4 per cent. gold bonds and $5,000,000 in 1st preferred stock.

The first dividend declared by the reorganized company was 1½ per cent. on the 1st preferred stock, paid August 30, 1901. Semi-annual dividends of 1½ per cent. each were also paid on the 1st preferred in February, 1902; August, 1902, and February, 1903. On August 31, 1903, a semi-annual dividend of 2 per cent. was paid on the 1st preferred stock, and another of 2 per cent. was also paid February 29, 1904, which put the 1st preferred on a full 4 per cent. basis. Subsequent dividends on the 1st preferred were at the rate of 4 per cent. per annum, paid half yearly, 2 per cent., the dividend dates in 1906 being February 28 and September 7. In April, 1907, 2 per cent. cash was again paid, but the dividend declared in September, 1907, was made payable in 10-year scrip, due October, 1917. See below. The first dividend on the 2d preferred stock was 4 per cent. annual, declared in September, 1905, and payable 2 per cent. in October, 1905, and 2 per cent. April 6, 1906. In 1906, 4 per cent. was again declared on the 2d preferred, payable, 2 per cent. October 9, 1906, and 2 per cent. April 9, 1907. The New York State Public Service Commission, Second Division, whose ratification was necessary for the issue of dividend scrip to pay the last mentioned dividends on the 1st and 2d preferred stock, refused its consent March 19, 1908, thereby preventing the payments in question and no dividends have been paid on either class of preferred stock to May 1, 1915, inclusive.

(a) Interest payable without deduction for taxes.

The balance sheet, June 30, 1914, gave equipment trusts outstanding as $17,217,457.

Interest on the various bonds of the Erie Railroad is paid at the office of the company, 50 Church street, New York.

See MANUAL for 1896 for old securities retired in reorganization, and also for 1896 and 1897 for terms of exchange and assessments for old bonds and stock under the plan.

In 1914 a new refunding mortgage was proposed, but formal action authorizing the same was not taken up to March, 1915.

The 1st consolidated mortgage was created under the reorganization of 1895, and is for $175,000,000, divided into $35,000,000 prior lien and $140,000,000 3 to 4 per cent. general lien bonds. The latter's first coupons were payable January 1, 1897, and they bore 3 per cent. for two years and 4 per cent. thereafter. Of the general lien bonds $79,918,000 were reserved for ultimate retirement of old bonds and guaranteed stocks left undisturbed, and $17,000,000 for improvements. Both the prior and general lien bonds have 10 votes for each $1,000 of bonds.

A new refunding and improvement mortgage to provide for refunding all the company's obligations was under consideration at the beginning of 1915.

The collateral trust 4 per cent. mortgage was created in February, 1901, to pay for the acquisition of the Pennsylvania Coal Co. It is secured by a deposit of the majority of the latter's stock and 51 per cent. of the stock of the New York, Susquehanna & Western Railroad Co. The amount of bonds authorized is $36,000,000.

The convertible 4 per cent. bonds were created in 1903, and are $50,000,000 authorized. Trustee of the mortgage, Guaranty Trust Company, New York. The first issue, or Series A, $10,000,000 (for which stockholders had the right to subscribe at 92½), are convertible into common stock at 50 for the latter, before April 1, 1915.

The second issue, or Series B, of the convertible bonds for $12,000,000 was authorized in September, 1905, stockholders of record October 21, 1905, being given the right to subscribe for the same at par. The bonds are convertible into common stock at 60 for the latter before October 1, 1917. In 1912, $10,000,000 Series C, 4 per cent. convertibles, were issued, but are held as part of the collateral for the $10,000,000 of 5 per cent. 3-year notes, due April, 1915.

The 5½ per cent. notes, due April, 1917, were issued and sold to retire $12,500,000 3-year, 6 per cent., notes which matured April 8, 1914. The 5½ per cent. notes are dated April 1, 1914, and after one year can be called at 102 and interest.

The 1-year, 5 per cent. notes, due April 1, 1916, were created to retire maturing notes, including the 5 per cent., 3-year notes, due October 1, 1915, at their maturity. The new notes can be called at 100½ on 60 days' notice.

The Erie & Jersey 1st mortgage, and the Genesee River Railroad 1st mortgage bonds were sold in January, 1915. The rate of interest on each of these issues, which was originally 4 per cent., was increased to 6 per cent. With the proceeds of the sales, the company retired maturing notes.

The Northern Railroad of New Jersey in 1899 created a general mortgage of $1,000,000 4½ per cent., guaranteed by the Erie, of which $804,000 were reserved to retire prior bonds, the balance to be used for improvements and construction.

GRAND TRUNK PACIFIC RAILWAY CO.

(Controlled by the Grand Trunk Railway Co.)

A corporation formed under a charter from the Dominion of Canada, October 24, 1903. The company was organized to build and operate an extension of the Grand Trunk Railway system to the Pacific coast of Canada.

The main line projected is to extend from Moncton, N. B., to Quebec, thence to Winnipeg, and from that point to the Pacific at Prince Rupert, B. C., about 3,550 miles, exclusive of branches. The Eastern Division, Moncton to Winnipeg, about 1,800 miles, is being built by the Canadian Government and will be leased on completion to the company for fifty years at a rental equivalent to 3 per cent. per annum on the cost of construction, the Government, however, agreeing if necessary to pay the interest charges for the first seven years of the lease. The Western Division, Winnipeg to the Pacific, about 1,755 miles, to be built by the company, is divided into two sections: the Prairie Section, Winnipeg to the Rocky Mountains, about 829 miles, and the Mountain Section, from the Rocky Mountains to the Pacific, about 839 miles. The Canadian Government agreed to guarantee principal and interest of 1st mortgage bonds on the Western Division at the rate of 3 per cent. per annum for fifty years to the extent of three-fourths the cost of the line which, however, for the Prairie Section shall not exceed $13,000 per mile. The Government agreed to pay the interest on the proportion of bonds on the Mountain Section which it guarantees for the first seven years without recourse to the company. The Grand Trunk Railway Co. is to guarantee principal and interest at the rate of 4 per cent. on the bonds issued for the remaining one fourth the cost of the Western Division. In consideration of this guaranty the Grand Trunk Railway Co. receives all the capital stock of this company except the shares necessary to qualify the directors.

A line known as the Lake Superior Branch extends from Fort William, Ont., to a connection with the main line of the Eastern Division, about 188 miles. This branch was built by the company, and in aid thereof the Province of Ontario granted a cash subsidy of $2,000 per mile and a land grant of 6,000 acres per mile.

Branches connecting the Eastern Division with the lines of the Grand Trunk Railway Co. are also contemplated, as well as extensions to various points in the Canadian Northwest and British Columbia, and also to Dawson, Yukon Territory. During 1907 to 1914, inclusive, construction work was prosecuted, and at the beginning of 1915 the completed lines included about 1,800 miles of the Eastern Division, together with Winnipeg to Prince Rupert, 1,746 miles; Lake Superior Branch, 188 miles; branches, about 1,000 miles; total completed, 4,738 miles.

All the outstanding stock is owned by the Grand Trunk Railway Co. Stock is transferred by the Treasurer of the Company, Montreal. Registrar, Royal Trust Co., Montreal.

GREAT NORTHERN RAILWAY CO.

A corporation chartered by the Territory of Minnesota, March 1, 1856, as the Minneapolis & St. Cloud Railroad Co., the name being changed in 1889 to the present title. It acquired nearly all stock of the St. Paul, Minneapolis & Manitoba Railway, and leased that company's property for 999 years, from February 1, 1890. In 1907 it purchased the property of the St. Paul, Minneapolis & Manitoba Railway Co., and of sundry proprietary companies. It controls various roads in Canada, including the Vancouver, Victoria & Eastern Railway & Navigation Co., and others. The Spokane, Portland & Seattle Railway is controlled jointly with the Northern Pacific. In 1909 the company acquired an interest in the Spokane & Inland Empire Railroad Co., which operates 212 miles of electric railway. See statement of that company in the Industrial Section of the MANUAL.

The system extends from St. Paul and Duluth, Minn., to Seattle, Washington, with numerous branches. Mileage, June, 30, 1914, 7,822.01 miles, of which 6,902.79 miles were owned: 17.66 miles owned but leased to other companies; 623,68 miles owned by controlled companies; 1.69 miles controlled but operated independently, and 290.85 miles trackage.

Locomotives, 1,324; passenger cars, 1,193; freight cars, 55,394; service cars, 1,750.

This company and the Northern Pacific in 1901 jointly purchased the stock of the Chicago, Burlington & Quincy Railroad. In payment for the Burlington stock the two purchasing companies issued their joint 4 per cent. collateral trust bonds at $200 per share for the Burlington shares. In 1908 the Burlington purchased control of The Colorado & Southern Railway Co.

This company, through a subsidiary organization, the Lake Superior Co., Limited, acquired a large amount of iron ore lands, a portion of which were leased January 2, 1907, to the United States Steel Corporation, to be operated by it on royalty. The stocks of the companies holding these ore lands were transferred to trustees, to be held for the benefit of the stockholders of the Great Northern Railway Co. Under date of October 22, 1906, announcement was made that the Great Northern Railway stockholders of record December 6, 1906, would receive certificates of a beneficial interest in the ore properties at the rate one share of said certificates (the same having no par value) for each share of Great Northern stock held, the total issue of the ore certificates being 1,500,000 shares. For details, including the abandonment of the above contracts by the United States Steel Corporation in 1911, see separate statement of Great Northern Iron Ore Properties in the Industrial Section of the MANUAL.

Stock.....Par $100.....Authorized, $250,000,000.....Issued, $230,997,700

The stock issued and outstanding is styled "preferred" although there is no common stock either authorized or issued. See below. There is held unissued in the treasury $1,750 additional stock for acquiring 14 shares of St. Paul, Minneapolis & Manitoba Railway stock still outstanding.

Stock is transferred at the office of the company, New York. Registrar, Central Trust Co., New York.

From 1892 to 1896, inclusive, 5 per cent. dividends were paid. In August, 1897, the rate was increased, making 5½ per cent. paid in 1897. In 1898 the rate was further increased to 6¼ per cent., and in 1899 and subsequent years 7 per cent. was paid on the stock. Dividends are paid quarterly, 1¾ per cent. each, in February (1), May, August and November. In May, 1901, ½ per cent. extra, and in November, 1907, 1½ per cent. extra were paid from the earnings of the Lake Superior Co., Limited.

Originally, in 1890, $20,000,000 preferred non-cumulative stock was issued at 50 to St. Paul, Minneapolis & Manitoba stockholders, the other 50 per cent. being paid for by a transfer to this company of the St. Paul, Minneapolis & Manitoba treasury securities when this company leased the St. Paul, Minneapolis & Manitoba and guaranteed 6 per cent. on its $20,000,000 of stock. The Great Northern common stock authorized was $20,000,000, but none was issued. In 1893, $5,000,000 additional preferred was issued at par to pay for equipment, terminals, etc. In 1898 preferred stock was increased $25,000,000; of this $15,000,000 was sold to stockholders *pro rata* at par and proceeds used to retire the company's $15,000,000 of 4 per cent. collateral trust bonds and $10,000,000 was given to stockholders in exchange for the $12,500,000 stock of the Seattle & Montana Railroad which had been distributed on the stock of the Great Northern as a 50 per cent. dividend. By these operations the Great Northern preferred stock was raised to $50,000,000.

In October, 1898, the company decided to cancel the right to issue common stock and to increase the authorized stock to $75,000,000, making all the stock uniform as to character and rights. The $25,000,000 new stock was offered to the holders of the St. Paul, Minneapolis & Manitoba's $20,000,000 of stock in payment for their shares at $125 each. A large majority of the St. Paul, Minneapolis & Manitoba stockholders accepted in advance.

In April, 1899, the stock was increased $15,000,000, making the authorized total $90,000,000, and the increase was offered to stockholders at par, proceeds being used to acquire the bonds and stock of the Spokane Falls & Northern and other branches, and $7,500,000 new stock of Eastern Railway of Minnesota. In January, 1900, another increase of $9,000,000 was offered to stockholders at par, the purpose being to acquire $3,500,000 additional stock of the Eastern Railway Co. of Minnesota and $5,500,000 additional stock of the Wilmar & Sioux Falls Railway Co. This increased the authorized stock to $99,000,000. In April, 1900, a further issue of $1,000,000 stock was authorized, to be offered solely to the Great Northern Employees Investment Co., a corporation organized for the benefit of the company's employees. This increased the capital stock to $100,000,000. In March, 1901, a further increase of $25,000,000 in the stock was announced, making the total $125,000,000. Stockholders were given the right to subscribe at par for the increase in the proportion of 25 per cent. of their holdings, being credited with $20 per share on such subscriptions, thus making the price paid by them for the new stock $80 per share. In September, 1905, a further issue of $25,000,000 stock was authorized, and was subscribed for at par by the stockholders.

Under date of December 11, 1906, the company announced a further increase in the stock of $60,000,000, making the authorized amount $210,000,000. The stockholders of record January 4, 1907, were offered the right to subscribe for the new stock at par to the extent of 40 per cent. of their holdings. In 1912 the authorized stock was again increased to $231,000,000. Stockholders of record, December 21, 1912, received the right to subscribe at par, for $21,000,000 of new stock to the extent of 10 per cent. of their holdings. Payment on subscriptions was in instalments between February 10, 1913, and February 2, 1914. In February, 1914, a further increase of the authorized stock to $250,000,000 was announced. Stockholders of record March 26, 1914, received the right to subscribe at par for $19,000,000 new stock to the extent of 8 per cent. of their holdings. Payments on subscriptions were 40 per cent. May 11, 1914; 30 per cent. August 11, 1914, and 30 per cent. October 13, 1914. Interest at 5 per cent. was allowed on instalments to November 2, 1914, stock being delivered against the full paid receipts after November 16, 1914.

INTEROCEANIC RAILWAY OF MEXICO, LIMITED

A corporation formed under the laws of Great Britain in 1888. It acquired concessions from the Government of Mexico for the building and operation of a railroad from Vera Cruz to Acapulco, via the City of Mexico, the concession being for 99 years from 1883. The line from Vera Cruz to the City of Mexico was completed in 1891.

Road owned, Interoceanic Railway; Vera Cruz to the City of Mexico, via Puebla and branches, 596 miles; Mexican Eastern Railway, 140 miles; Mexican Southern Railway, 313 miles; total operated, 1,049 miles.

Locomotives, 107; passenger cars, 141; freight cars, 1,491.

The Mexican Eastern Railway Co., Limited, was organized in 1901 for the purpose of acquiring the Nautla Railway, 79 miles, and constructing a cut-off of 61 miles from Virreyes to San Nicolas. Upon its completion the road was leased by the Interoceanic Railway.

In 1903 the National Railroad Co. of Mexico acquired from the Mexican Government considerable interests in the securities of this company and assumed the operation of the road. These interests passed to the National Railways of Mexico, which holds £1,310,500 common stock, £142,800 1st preference stock, £102,000 2d preference stock and £1,038,450 2d debentures.

The Mexican Southern Railway Co., 313 miles, is leased from January 1, 1910, for the balance of time of its concession, and as the concessions of the Interoceanic Railway expire before those of the Mexican Southern, the agreement provides that after the expiration of the former company's concessions the contract will continue in favor of the National Railways of Mexico. The rental is a sufficient amount to provide principal and interest of the Mexican Southern's £875,000 4 per cent. debentures and the retirement of its £1,000,000 stock, together with dividends on the stock progressing in amount from 3½ per cent. in 1910 to 5¼ per cent. in 1917, and 5½ per cent. thereafter.

The company had £1,000,000 of preference stock which was 7 per cent. cumulative. In 1908, this was exchanged for the new 1st preference, which is 5 per cent. non-cumulative, and the 2d preference, which is 4 per cent. non-cumulative.

Dividends on the 1st preference have been: in 1908, 4½ per cent.; in 1909, 5 per cent.; in 1910, 5 per cent.; in 1911, 5 per cent.; in 1912, 5 per cent.; in December, 1913, 4 per cent. No further dividends paid. On the 2d preference, 1 per cent. was paid in 1909 and 4 per cent. in 1910 and 1911. In November, 1912, 2 per cent. was paid on the 2d preference. No further dividends paid.

THE MINNEAPOLIS & ST. LOUIS RAILROAD CO.

A corporation formed in 1894 as a reorganization of the company of the same name which was foreclosed. On January 1, 1912, this company purchased the property of the Iowa Central Railway Co., the stock of which was exchanged for that of the Minneapolis & St. Louis and the company consolidated with this company. See below.

Road owned, Minneapolis, Minn., to Angus, Ia., 259.90 miles; Hopkins, Minn., to Leola, S. D., 330.20 miles; Northwood to Albia, Ia., 189.50 miles; Winthrop, Minn., to Storm Lake, Ia., 153.50 miles; Conde to Le Beau, S. D., 115.47 miles; Oskaloosa, Ia., to Iowa Junction, Ill., 185.80 miles; branches, 128.82 miles; Des Moines & Fort Dodge Railroad, Ruthven, Ia., to Des Moines, 137.62 miles; total owned, 1,500.81 miles; leased, Belmond, Ia., to Algona, Ia., 36.60 miles; trackage, 109.06 miles; total, 1,646.47 miles. The lines purchased from the Iowa Central Railway Co. included 558.82 miles. The company owns 1.45 miles leased to the Minneapolis & St. Paul Suburban Railway Co., which is not included in the above. The road from Albert Lea, Minn., to Manly Junction, Ia., 27.52 miles, is owned jointly with the Rock Island system. The Des Moines & Fort Dodge Railroad Co., which was controlled and leased, is to be absorbed by this company in 1915. Extensions are planned northward from Minneapolis to the Canadian boundary and southward to Moberly, Mo. Locomotives, 218; passenger cars, 127; freight cars, 7,294; service cars, 320.

Stock...Par $100..Authorized { com., $18,000,000 / pref., 12,000,000 } Issued { com., $16,246,750 / pref., 6,299,250 } $22,546,000

The company originally had $2,500,000 1st preferred stock, 5 per cent., cumulative, and $4,000,000 2d preferred, 5 per cent., non-cumulative. The 1st preferred stock was subject to retirement at par and accrued dividends, and in June, 1899, was paid off with part of proceeds of the issue of refunding 4 per cent. bonds. This made the 2d preferred the only preferred stock. In December, 1911, the authorized common stock was increased from $13,500,000 to $18,000,000 and the preferred stock authorized from $4,000,000 to $12,000,000, to provide for the exchange of the Iowa Central stock and other purposes. The proposition for the purchase of the Des Moines & Fort Dodge Railroad Co. in 1915 involved giving holders of its $763,500 preferred stock 50 per cent. in Minneapolis & St. Louis preferred stock, and 50 per cent. in Minneapolis & St. Louis refunding and extension bonds. The Des Moines & Fort Dodge common stock, $4,283,100 in amount, of which Minneapolis & St. Louis owned $2,530,000, was to be exchanged on the basis of one share of Minneapolis & St. Louis common for two shares of Des Moines & Fort Dodge common.

The Iowa Central Railway Co. had authorized $11,000,000 common and $7,400,000 5 per cent. non-cumulative preferred stock, of which there was outstanding $8,525,623 common and $5,674,809 preferred. Under the plan of consolidation dated December 13, 1911, the Iowa Central stockholders were offered 1 share of Minneapolis & St. Louis preferred and 9 shares of Minneapolis & St. Louis common for each 10 shares of Iowa Central preferred and 1 share of Minneapolis & St. Louis common for each 2 shares of Iowa Central common. A bonus of 50 per cent. in preferred stock upon subscriptions to the new refunding and extension bonds was also offered to stockholders of both companies. This operation involved an increase of $1,917,500 in the preferred and $9,370,200 in the common stock of this company.

Stock is transferred at the office of the company, New York. Registrar, United States Mortgage & Trust Co., New York.

In the year 1894-95 the company paid 3½ per cent. dividends on the 1st preferred stock; in 1896, paid 5 per cent. on 1st preferred and 3 per cent. on 2d preferred; in 1897, 3 per cent. on 1st and 3 per cent. on 2d preferred; in 1898, 3½ per cent. on 1st and 3½ per cent. on 2d preferred. The July, 1898, dividend on the latter was increased from 1¾ to 2 per cent. semi-annual. After the retirement of the 1st preferred in 1899, making the 2d preferred the only preferred stock, the rate upon the latter was made 2½ per cent. semi-annual, in January (15) and July, which was paid until January, 1910, inclusive, since which time no dividends have been paid. In July, 1900, an initial dividend of 1¼ per cent. was paid on the common. On January 15, 1901, a second dividend of 2 per cent. was paid on the common and 2 per cent. on July 15, 1901. The dividend on the common paid January 15, 1902, was increased to 2½ per cent., putting the com-

mon stock on a 5 per cent. basis, which was the rate on that class of stock until January, 1904, inclusive, but the July, 1904, dividend was passed, and none have since been paid.

For dividends paid in past years by the Iowa Central Railway Co. on its stocks, see statement of that company in the MANUAL for 1911.

(*a*) Interest payable without deduction for taxes. (*b*) Interest payable without deduction for taxes either in the United States or in Mexico.

The prior lien mortgage is for $225,000,000 in United States currency. The bonds are secured by the deposit of all the securities of constituent companies acquired under the plan. Trustee, Central Trust Co., New York. There is a provision for the creation of a sinking fund, beginning in 1917, sufficient to retire the entire issue at or before maturity. The bonds are subject to purchase for the sinking fund and to redemption on any interest date after January 1, 1917, at 105 and interest, on 90 days' notice.

The right was reserved to issue $6,000,000 additional bonds, ranking *pari passu* with the other bonds of this series, to take up or retire at or before maturity £1,200,000 prior lien sterling bonds of the Mexican International Railroad Co., or an equal amount of prior lien bonds of the National Railroad Co. of Mexico, into which such sterling bonds of the International Company may have been refunded.

The general 4 per cent. mortgage is for $160,000,000 in United States currency. The bonds are guaranteed, unconditionally as to principal and interest, by endorsement by the United States of Mexico. Trustee, New York Trust Co., New York. A sinking fund for the issue commences in 1937. It is provided that additional bonds may be issued to retire an equal amount of the consolidated mortgage bonds of the Mexican International Railroad Co., or of consolidated mortgage bonds of the National Railroad Co. of Mexico, into which such bonds of the International Co. may have been refunded, and also to issue additional bonds to take up or retire at or before maturity an equal amount of the consolidated mortgage bonds of the National Railroad Co. of Mexico, into which prior lien bonds of that company may have been refunded.

All the company's bonds are payable, both principal and interest, without deduction for any taxes which may be required under any present or future law of Mexico or of any State or municipality therein or of the United States of America or of the State of New York or any municipality in said State, and are to be payable, both as to principal and interest, in the City of New York, in gold coin of the United States, and all coupon bonds are also to be payable, both as to principal and interest, at the option of the holder, in Mexico City, at the fixed rate of two gold pesos to the dollar in Mexican gold pesos, or in London at the rate of $4.86 to the pound sterling. Interest is also payable in francs at the rate of 5.18; in guilders at 2.48 and in reichsmarks at 4.20.

The interest due January 1, 1914, on this company's prior lien 4½ per cent. bonds and on the National Railroad Co. of Mexico prior lien 4½s, as well as on the Mexican Central Railway priority 5 per cent. bonds, was not paid in cash. The company, however, submitted a proposition to pay the coupons due at that time in 6 per cent. three-year notes of the total amount of $2,460,341, due January 1, 1917, and redeemable by the company at par. The notes were to be secured by £595,580 of Mexican Government 6 per cent. 10-year Treasury bonds of 1913 by coupons to be deposited at the office of the Guaranty Trust Co., in either New York or London. As of January 31, 1913, 85 per cent. of the amount of the coupons had been deposited, thereby making the plan operative. The same offer was made in respect to the July, 1914, coupons of the first mentioned bonds, and $267,523, 6 per cent., Mexican Government redeemable bonds were deposited as security for the notes.

An offer similar to the above was made in respect to the April, 1914, coupons of the National Railways general mortgage 4s, and the National Railroad Co. of Mexico 1st consolidated 4s, and the June, 1914, coupons of the National Railways 6 per cent. gold notes. The notes given for said coupons were denominated Series B notes, and were likewise secured by Mexican Government 6 per cent. bonds.

In 1913, £6,000,000, or $29,160,000, 2-year 6 per cent. secured gold notes were authorised, of which $26,730,000 were issued and sold, partly to provide for $10,000,000 4½ per cent. notes, due June 1, 1913, and $13,000,000 of 1-year 6 per cent. extended notes, due November 1, 1913. The 6 per cent. notes issued are secured by $23,537,500 prior lien 4½s and $14,779,500 general mortgage 4s.

Details concerning the equipment and collateral bonds and notes of the Mexican Central Railway Co., Limited, and the bonds of the National Railroad Co. of Mexico, which were left undisturbed under the readjustment and merger, will be found under the separate statements of the two companies in question in the MANUAL for 1909.

The National Railways of Mexico guarantees $7,000,000 1st mortgage, 4½ per cent., due July, 1934, of the Vera Cruz & Pacific Railway Co.; $2,400,000 1st mortgage bonds, 5s, due January, 1934, and $3,654,000 general mortgage 5s, due January, 1937, of the Pan American Railroad Co., and is joint guarantor with the St. Louis, Brownsville & Mexico Railroad Co. of $300,000 1st mortgage 5s, due January, 1930, and $100,000 general mortgage bonds of the Brownsville & Matamoras Bridge Co.

It also owns 10.22 miles of street railroad (Fourth avenue line and branches) in New York City, which was not included in the above lease and was operated by the company itself, being finally leased in July, 1896, to the Metropolitan Street Railway Co., and since January 1, 1912, has been operated under said lease by its successor, the New York Railways Co. See statement of the last named company.

In December, 1911, the New York Central was granted authority to purchase all or any part of this company's stock, at 350 per cent., or $175 per share, and under its offer of that price the New York Central in January, 1915, had acquired $6,195,800 of the stock of this company.

Dividends on both classes of stock, aggregating 10 per cent. per annum, are paid from New York Central rental, 5 per cent. each, in January and July. The dividends from Metropolitan Street Railway rental, usually paid 2 per cent. each, in April and October, were not paid in 1909 or in April, 1910, the rental having been reserved on account of litigation respecting special franchise taxes assessed against the street railway line. In October, 1910, and April, 1911, 1¾ per cent. each was paid, and in October, 1911, 2 per cent. The franchise tax litigation having been settled, this company's stockholders received on January 23, 1912, a special dividend of 7 per cent., covering accumulated rental of its street railway, which had been held in reserve on account of the litigation. The regular dividends from the street railway rental are now duly paid, 2 per cent. each, in April and October.

The lease to the New York Central & Hudson River Railroad Co. is for 401 years from 1873, the rental being interest on the bonds and 8 per cent. on the stock. In connection with the refunding of the old 7 per cent. bonds into 3½ per cent. in 1900, it was agreed that the lease rental should be increased 2 per cent., making the dividends paid the New York & Harlem stockholders

by the New York Central 10 per cent. per annum, or 5 per cent. semi-annually, instead of 4 cent. This increase began with the July, 1900, payment.

The dividend record of the Lake Shore & Michigan Southern Railway for a series of years is given in that company's statement in the MANUAL for 1914. In the years 1910 to 1914, inclusive, 18 per cent. per annum was paid on its common stock, being 6 per cent. semi-annual in January and July, and 6 per cent. extra in March of each year.

Interest on all the bonds is paid at the company's office, Grand Central Terminal, New York.

The refunding and improvement mortgage dated October 1, 1913, is not authorized for any definite amount. The mortgage, however, embodies restrictions as to the issuance of bonds thereunder which may be in series bearing different rates of interest. The mortgage, subject to prior liens, covers the property of the New York Central & Hudson River Railroad Co. prior to its consolidation with the Lake Shore and its different leasehold estates, together with the stocks of leased and controlled companies, including the $10,000,000 stock of the West Shore Railroad Co. The mortgage has been assumed by the Consolidated Co., and covers all the property acquired in the consolidation subject to certain prior obligations. The Series A 4½ per cent. bonds were authorized in 1913 for $70,000,000, of which $40,000,000 were sold to a banking syndicate with an option upon the remaining $30,000,000. The Series A bonds are redeemable at 110 on any interest date on 3 months' notice. Trustee of mortgage, Guaranty Trust Co., New York.

The 6 per cent. convertibles of the New York Central Railroad Co. (consolidated company) are $100,000,000, authorized, and are convertible into the company's stock between May 1, 1917, and May 1, 1925, at the rate of $105 of the bonds for $100 of stock. They can be called for redemption at 110 on any interest date upon 90 days' notice, but if called retain the conversion right up to 30 days before the date of redemption. The issue, which was underwritten by a syndicate, was offered to the stockholders of record March 19, 1915, for subscription at par to the extent of 40 per cent. of their holdings, the subscriptions to be made by April 27, 1915. Payments upon subscriptions were 50 per cent. May 1, 1915, 25 per cent. September 1, 1915, and 25 per cent. October 1, 1915, interest at 6 per cent. per annum from May 1 to the date of payment to be added to the installments, payable September 1 and October 1. Subscribers could, however, anticipate the payment of installments by making payment in full. The purpose of the issue was to liquidate maturing obligations of the constituent companies during 1915, including various short term notes.

The 3½ per cent. refunding mortgage of the New York Central & Hudson River Railroad Co., created in 1897, is now a 1st lien on the main line from New York to Buffalo and branches and is for $100,000,000, authorized. Trustee, Central Trust Co., New York.

The New York Central & Hudson River Railroad consolidation mortgage is for $167,102,400, being a junior lien upon the system as it existed after merging the Rome, Watertown & Ogdensburg Railroad and other lines in New York State in 1913. This mortgage secures equally the 3½ per cent. collateral trust bonds secured by the Lake Shore and the Michigan Southern stocks respectively, as well as the New York Central & Hudson River Railroad 4 per cent. debentures, due 1934 and 1942. See below regarding the exchange of consolidation mortgage 4s, Series A, for the Lake Shore collateral 3½ per cents. Trustee of the consolidation mortgage, Bankers Trust Co., New York.

On February 4, 1898, the old company authorized a $100,000,000 3½ 50-year gold bond issue to be exchanged for the stock of the Lake Shore & Michigan Southern at 200 for the $50,000,000 of the latter. The offer, it was stated, was accepted in advance by the larger interest, and other holders of Lake Shore were given until April 14, 1898, to accept. The bonds were secured by deposit of the Lake Shore stock acquired with the Guaranty Trust Co., New York, trustee. See below regarding plan to retire this issue in exchange for new 4 per cents. In pursuance of subsequent arrangements the bonds of this issue which remain outstanding are a 3d mortgage on the Lake Shore road.

In February, 1898, the old company authorized $21,550,000 of similar 3½ per cent. bonds to be offered in exchange for the $18,738,000 of stock of the Michigan Central Railroad at 115 for the latter. These bonds are secured by the Michigan Central stock acquired. The stock acquired is held as collateral for the bonds by the Guaranty Trust Co., New York, trustee.

In 1913 holders of the 3½ per cent. collateral trust bonds secured by the Lake Shore stock were invited to accept consolidation mortgage 4 per cent., Series A, bonds in exchange for the same. When the option originally expired on April 11, 1914, over 75 per cent., or some $69,000,000, of the Lake Shore collateral 3½ per cents. had accepted this offer. The exchange of the old bonds for the 4s was still pending at the beginning of 1915.

The Lake Shore & Michigan Southern Railway 1st consolidated mortgage is for $50,000,000 authorized. Trustee, United States Trust Co., New York. That company's 4 per cent. debentures, due 1928, were authorized in 1903, and the 4 per cent. debentures, due 1931, were authorized in 1906. The debentures now constitute a 2d mortgage upon the Lake Shore property. Trustee for both issues, Guaranty Trust Co., New York.

The different New York Central Lines serial equipment trust bonds are secured by certain rolling stock, being jointly and severally guaranteed by the Old New York Central, the Lake Shore & Michigan Southern, the Michigan Central, the Cleveland, Cincinnati, Chicago & St. Louis and the Chicago, Indiana & Southern Railroad Companies.

In 1882 the Lake Shore acquired a controlling interest in the New York, Chicago & St. Louis Railroad consisting of $2,503,000 of its 1st preferred, $6,275,000 of its 2d preferred and $6,240,000 of its common stock. The Lake Shore also has a controlling interest in Pittsburg & Lake Erie, holding $14,994,250 of its stock. In 1900 it acquired control of the Lake Erie & Western Railroad Co., holding $5,940,000 of the common and $5,930,000 of the preferred stock of that company. It also in the same year acquired $11,224,000 of the common stock of the Cleveland, Cincinnati, Chicago & St. Louis Railway Co., and has increased the same to $30,207,700. It holds $3,000,000 stock of the Lake Erie, Alliance & Wheeling Railroad Co., $500,000 stock of the Terminal Railway Co. of Buffalo and $561,200 stock of the Merchants' Despatch Transportation Co. Its interests in the Reading Company December 31, 1914, comprised $6,065,000 1st preferred, $14,265,000 2d preferred and $9,852,500 common stock of that corporation. The par of stocks and bonds of other companies owned was, on December 31, 1914, $158,454,250, with a book value of $113,155,626.

The consolidation of the New York Central & Hudson River Railroad Co. with the Lake Shore & Michigan Southern became effective, as stated above, in December, 1914. Separate reports for the companies were published covering their operations in 1914. The statistics of each for a series of years to 1914, inclusive, are given below as matters of record.

During the years from 1900 and thereafter this company acquired large interests amounting in most cases to a control in different transportation utilities in the New England States comprising electric street and interurban railways, steamboat lines, etc. It also acquired control of the Boston & Maine Railroad system, the same being vested in the Boston Railroad Holding Co., which the New Haven Co. controlled. See below regarding details of the principal acquisitions.

The street railway companies controlled by the New York, New Haven & Hartford Railroad Co. included: The Connecticut Co., operating 705.00 miles; the New York & Stamford Railway Co., operating 37.51 miles; the Westchester Street Railway Co., operating 30.67 miles; Berkshire St. Railway Co., operating 144.86 miles; New York, Westchester & Boston Railway Co., operating 21.75 miles, and The Rhode Island Co., operating 305.03 miles; total street railways, 1,035.93 miles. This company also controlled the Housatonic Power Co.; the New England Navigation Co.; The New England Steamship Co.; Hartford & New York Transportation Co.; Millbrook Co.; the Westport Water Co., Waterbury Gas Light Co., Watertown Gas Co., and New Bedford, Marthas Vineyard & Nantucket Steamboat Co.

On April 21, 1914, the company's stockholders authorized the directors to arrange with the United States Department of Justice for the segregation of the different properties, the control of which had been the subject of criticism and objection on the part of the Government. In August, 1914, an agreement was made between the company and the Government providing for the transfer of certain properties to independent trustees who should dispose of the same under the terms set forth in the agreement, the company also agreeing to divest itself of various other interests.

1. The stock of the Boston Railroad Holding Co. to be placed in the hands of trustees who shall sell the Boston & Maine Railroad stock owned by that company by January 1, 1917. See statements of Boston Railroad Holding Co. and of the Boston & Maine Railroad.

2. The stocks of the Connecticut Co. and of the Rhode Island Co. to be transferred to separate trustees who shall sell the same before July 1, 1919.

3. The stock of the Berkshire Street Railway Co. to be transferred to trustees who shall sell the same by July 1, 1919.

4. The stock of the Eastern Steamship Co., held by the New England Navigation Co., shall be sold by July 1, 1917, and pending such sale the New Haven Co. and the New England Navigation Co. shall not vote the stock in question.

5. The interests of the New Haven system in the New York & Stamford Railway Co. and in the Shore Line Electric Railway shall be disposed of before July 1, 1919.

6. The question as to the retention of the New Haven Company's interests in the New England steamship Co. and the Hartford & New York Transportation Co. to be settled by the Interstate Commerce Commission.

In 1911 this company made an agreement with the New York Central & Hudson River Railroad Co., whereby it shared equally with the latter in the lease of the Boston & Albany Railroad. This company also secured trackage rights on portions of the Boston & Albany near Boston, and at Pittsfield, Mass., aggregating 53 miles. These arrangements regarding the joint control of the Boston & Albany were, however, cancelled in February, 1914. In 1911 this company acquired a one-half interest with the Pennsylvania Railroad Co. in the New York Connecting Railroad, about 9 miles.

On May 31, 1907, this company absorbed by merger the Consolidated Railway Co., which comprised 629 miles of electric railways. It was interested in the New England Investment & Security Co., which controls various electric roads in Massachussets. In July, 1913, it was stated that control of the company in question had passed to other interests. See statement of the New England Investment & Security Co. in the Industrial Section of the MANUAL.

In 1893 this company leased the Old Colony Railroad, carrying with it the lease to the latter, of the Boston & Providence Railroad. On June 30, 1914, this company owned $9,813,200 stock of the Old Colony. In 1895 it acquired the New England Railroad Co. and merged the latter with it in 1907. The New England Railroad Co. was a reorganization of the New York & New England Railroad Co.

In June, 1907, $10,994,800 stock of the Boston & Maine Railroad was acquired in the interest of this company and it was proposed to merge the two roads. The Massachusetts Legislature enacted a law prohibiting such a consolidation prior to July 1, 1908, and in 1908 this company's holdings were transferred to other parties. In 1909, under authority granted by Massachusetts, the Boston Railroad Holding Co. was incorporated, the New Haven owning the entire issue of $3,106,500 common stock of that company and $24,493,900 of its preferred stock. The interest in the Boston & Maine formerly held by the New Haven was taken over by the Holding Co. See statement of the Boston Railroad Holding Co.

In November, 1904, this company purchased a controlling interest in the Central New England Railway Co., including the Poughkeepsie Bridge, and held on June 30, 1914, $4,795,054 of that company's common and $3,770,083 of its preferred stock. See statement of the Central New England Railway Co.

In November, 1904, a control of the New York, Ontario & Western Railway Co. was purchased by this company, which, on June 30, 1914, held $29,160,000 of its common and $2,200 of its preferred stock.

In December, 1906, control of the Rhode Island Securities Co., which represented the trolley system of Providence and its vicinity, was acquired. The Providence Securities Co. was organized in 1906 to hold these properties through subsidiary companies, the Rhode Island Co., the United Traction & Electric Co. and the Rhode Island Suburban Railway Co. The New Haven held $9,685,500 stock of the Rhode Island Co.

In 1906 the properties of the Connecticut Railway & Lighting Co. were leased to the Consolidated Railway Co., and the Connecticut Co. took over the operation of the same. In 1910 the gas and electric-lighting interests involved were transferred to the Housatonic Power Co., a subsidiary corporation. The New Haven owned the $40,000,000 stock of the Connecticut Co.

This company controls the New York, Westchester and Boston Railway Co., which constructed an electric road between 133d street, New York City, and Mount Vernon, N. Y., with extensions to White Plains and to Port Chester, N. Y.

In 1911, one-half, or $2,352,050, of the New York Central's controlling interest in the Rutland Railroad Co. was secured in this company's interest through a subsidiary company. In December, 1911, an arrangement was negotiated for the transfer to this company of the New York Central's remaining interest in the Rutland Railroad. The New York Public Service Commission gave its approval, but the consummation of this sale has been delayed by litigation on the part of a minority interest in the Rutland Railroad.

Locomotives, 1,308; passenger cars, 2,360; freight cars, 35,713; service cars, 1,410; floating equipment, 1 steamboat, 18 tugs, other, 55.

Dividends of 2½ per cent. quarterly, or 10 per cent. per annum, were paid from 1872 until July, 1894, when the rate was reduced to 2 per cent. quarterly, or 8 per cent. per annum, which rate was maintained until the June, 1913, dividend was reduced to 1½ per cent., or at the rate of 5 per cent. per annum. The December, 1913, dividend was passed and none have since been paid to May, 1915. Dividends were paid March (30), June, September and December.

In November, 1905, stockholders of record December 1, 1905, were given the right to subscribe at par to the extent of $37.50 for each share of stock to an issue of convertible 3½ per cent. debentures, due January, 1956, interest January and July. The said debentures are convertible into stock of the company at the holder's option between January 1, 1911, and January 1, 1916, at the rate of $150 of the certificates for $100 of the stock.

In 1907 stockholders were given the right to subscribe for $39,029,600 6 per cent. debentures, due January, 1948, interest payable January and July, the same being convertible into stock at par after January 15, 1923. Stockholders of record December 2, 1907, were given the right to subscribe at par for these debentures on or before January 15, 1908, to the extent of $100 of the debentures for each three shares of stock held by them, and holders of the 3½ per cent. debentures, convertible into stock between 1911 and 1916, were also given the right to subscribe for the new debentures at par to the extent of $100 of the latter for each $450 of the 3½ per cent. debentures, including subscription warrants for the 3½ per cents.

Stockholders of record November 8, 1909, received the right to subscribe to the extent of 25 per cent. of their holdings for new stock at $125 per share. The holders of 6 per cent. convertible debentures shared in this right to the extent of one new share for each $400 of said debentures, and holders of the 3½ per cent. convertible debentures to the extent of one new share for each $600 of that class of debentures. The total amount subscribed for under this arrangement was $44,644,900 of new stock.

See statements of Old Colony Railroad, Boston & Providence Railroad Co., Providence & Worcester Railroad Co. and Norwich & Worcester Railroad Co., and Connecticut Railway & Lighting Co., for the funded debt of those companies.

The 15-year 4 per cent. European loan was placed with Paris banks and bankers in February, 1907, and is for 145,000,000 francs. The bonds are issued in denominations of 500 francs or multiples thereof. Interest is payable in Paris and London.

The 1-year, 5 per cent. notes, due May, 1916, were sold in April, 1915, to retire $19,927.000 of notes maturing May 1, 1915. They are secured by the company's holdings of stock of the New York, Ontario & Western, Old Colony, and other controlled or leased properties, and by $13,000,000 Harlem River & Port Chester 5 per cent. debentures. Trustees for notes, Bankers Trust Co., New York; Union & New Haven Trust Co., New Haven.

The Harlem River & Port Chester mortgage 4 per cent. bonds, due 1954, are an obligation of the parent company, and were created in 1904. The authorized issue is $15,000,000.

The New York, Westchester & Boston Railway 1st mortgage is $60,000,000 authorized. The 4½ per cent. bonds, Series A, of this issue are guaranteed, principal and interest, by the New York, New Haven and Hartford Railroad Co. It was stated in February, 1915, that the New York, New Haven & Hartford Co., would not divest itself of control of the New York, Westchester & Boston Co., but would retain this interest, the management believing that in time it would develop into a paying investment.

The New York Connecting Railroad 1st mortgage is for $30,000,000 authorized. The bonds are jointly and severally guaranteed by the New York, New Haven & Hartford Railroad and

by the Pennsylvania Railroad companies. They are redeemable after August 1, 1918, at 105 on ninety days' notice. The bonds are recorded tax free in New York, but it is expressly provided that payment of the interest without deduction for taxes does *not* cover the Federal Income Tax.

Stock.....Par $100.....Authorized, $60,113,982.....Issued, $58,113,982

Preferred stock was issued in the reorganization to the amount of $2,000,000, of which all but $4,000 has been exchanged at par for 1st mortgage bonds. See below regarding voting rights of the preferred stock.

Stock is transferred at the company's office, New York. Transfer Agent, James M. Fleming. Registrar, Bankers Trust Co., New York.

The first dividend on the stock was 3 per cent., paid January 16, 1905. See below. On July 31, 1905, a dividend of 1½ per cent. was paid; on July 30, 1906, 2 per cent.; on July 20, 1907, 2 per cent.: on August 3, 1908, August 9, 1909, August 15, 1910, and August 15, 1911, 2 per cent. No dividend was paid, however, in 1912. On August 4, 1913, paid 2 per cent.

Under the charter of this company the preferred stock elected a majority of the directors until a dividend had been paid on the company's common stock. In 1903-04 certain holders of the common claimed that the policy of the management in devoting all surplus earnings to improvements was unjust. After considerable controversy a plan was ratified at the annual meeting in September, 1904, for the creation of a new mortgage which would provide reimbursement for the company's capital expenditures. A dividend of 3 per cent. on the stock from accumulated earnings was paid January 16, 1905, on the common, accordingly divesting the preferred stock of the right to elect a majority of the company's directors.

Under the reorganization the company had $80,000,000 common and $75,000,000 preferred stock. The preferred stock was 4 per cent. non-cumulative, the company having the right to retire at par on any 1st of January prior to 1917.

On November 13, 1901, the directors gave notice that the preferred stock would be retired at par on January 1, 1902. The common stockholders were also given the right to subscribe for 75-80 of their holdings in 4 per cent. certificates of indebtedness at par, said certificates to be convertible into new common stock, the common stock being increased from $80,000,000 to $155,000,000 for this purpose. This arrangement was carried out on January 1, 1902.

In November, 1901, the Northern Securities Co. announced that it would exchange its shares for the common stock of the Northern Pacific at 115 for the latter, which arrangement was duly carried out on or about January 1, 1902, the Northern Securities Co. acquiring $153,750,640 of the stock of this company. See statement of Northern Securities Co. regarding litigation by the United States and the subsequent litigation in regard to the method of distributing the assets of that company. In 1905 the Northern Securities Co.'s holdings of Northern Pacific stock were distributed among the owners of Northern Securities stock.

In January, 1907, the authorized stock was increased to $250,000,000. Stockholders of record, December 31, 1906, had the right to subscribe on or before January 15, 1907, at par, to the extent of 60 per cent of their holdings, for $93,000,000 new stock. This issue increased the outstanding stock from $155,000,000 to $248,000,000.

Regular quarterly dividends on the old preferred stock were paid at the rate of 4 per cent. per annum, being 1 per cent. each in March (1), June, September and December. At the time the preferred stock was retired on January 1, 1902, an extra dividend of 1 per cent. was paid on it in addition to the regular December, 1901, dividend.

The first dividend on the common stock was 1 per cent., paid February 3, 1899. In August, 1899, 1 per cent. was paid on the common, and in December, 1899, a dividend of 1 per cent. and 1 per cent. extra was declared payable February 5, 1900. In August, 1900, 1 per cent. was paid, and 1 per cent. November 30, 1900, the February, 1901, dividend being also 1 per cent., thus putting the common on a 4 per cent. basis, and the dividends on the common, which are paid quarterly in February, May, August and November, were 4 per cent. for 1901, 5½ per cent. for 1902, and 7 per cent. for 1903, in which year 1¾ per cent. was paid quarterly with ¼ per cent. extra in February and November. The February, 1904, dividend was 1¾ per cent. without any extra dividend, but in May, August and November, 1904, 1¾ per cent. and ¼ per cent. extra were paid each dividend period. In 1905 the quarterly dividends were 1¾ per cent. each or 7 per cent. for the year, which has since been the regular rate.

NORTHERN SECURITIES CO.

A corporation formed under the laws of New Jersey, November 13, 1901. The company has power to acquire and hold the stock and securities of railroad and other corporations. It was organized in pursuance of plans to bring under one ownership the stocks of the Great Northern Railway Co. and the Northern Pacific Railway Co., which companies had acquired joint ownership of the stock of the Chicago, Burlington & Quincy Railroad Co.

In November, 1901, the holders of the preferred stock of the Great Northern Railway, which was then $125,000,000 in amount, were offered $180 per share, and those of the $155,000,000 of Northern Pacific common stock $115 per share for their stock, payable in stock of this company. Under the above offer this company acquired $153,759,400, or about 99 per cent. of the stock of the Northern Pacific Railway and $118,124,200, or 75 per cent. of that of the Great Northern Railway.

See below in regard to the reduction of the company's capital and the distribution of its holdings of Great Northern and Northern Pacific stock. On December 31, 1914, the company had in its treasury securities carried at $6,599,975, and comprising 14,963 shares of Chicago, Burlington & Quincy Railroad stock, and 27,552 shares of the stock of the Crow's Nest Pass Coal Co., Limited.

Stock.....Par $100.....Authorized, $400,000,000.....Issued, $3,954,000

The authorized stock as given is the original amount authorized in the incorporation of the company in 1901.

Transfer Agents, Hudson Trust Co., Hoboken, N. J.; M. H. Niles and E. A. Bernhols, 26 Liberty street, New York. Registrar, Bankers Trust Co., New York.

The first dividend paid on the stock of the company was 1 per cent. quarterly, paid February 1, 1902. And similar dividends were paid in February (1), May, August and November until February, 1903, when the quarterly dividend was increased to 1¼ per cent., putting the stock on a 4½ per cent. basis, which rate was paid until February, 1904, inclusive, when dividend payments were deferred in consequence of the decree of the United States Courts regarding dividends on the company's holdings of Northern Pacific and Great Northern stocks.

On the reduced capital stock or "stubs" an annual dividend of 5 per cent. was paid January 10, 1906, out of receipts for the year ending December 31, 1905, and 5 per cent. was also paid January 10, 1907, and January 10, 1908. On January 11, 1909, paid 4 per cent., on January 10, 1910, 2½ per cent., on January 10, 1911, 4 per cent., on January 10, 1912, 3 per cent., on January 10, 1913, 2 per cent., on January 10, 1914, 2 per cent., and on January 11, 1915, 2 per cent.

Opposition to the formation of this company developed, and in 1902 a suit was brought in the United States Circuit Court by the United States to test the legality of the company. In April, 1903, the Court decided in favor of the Government, and declared the acquisition by the company of interests in the Great Northern Railway Co. and the Northern Pacific Railway Co. to be an illegal combination.

On March 14, 1904, the Supreme Court of the United States affirmed the decision of the United States Circuit Court referred to above. On March 22, 1904, a circular was issued by the company stating that a special stockholders' meeting had been called to consider the following propositions, which were duly ratified on April 21, 1904.

First—That the capital stock of the company be reduced from 3,954,000 shares to 39,540 shares, being a reduction of 99 per cent.

Second—That said 99 per cent. of the outstanding shares be called in for surrender and cancellation.

Third—That against each share of the stock of this company so to be surrendered there should be delivered $39.27 stock of the Northern Pacific Railway Co., $30.17 stock of the Great Northern Railway Co., and proportionate amounts for each fraction of a share.

Stockholders on surrendering their original certificates received certificates for the 1 per cent. of the same to be retained, commonly called "stubs," and the proportionate amounts of the other stocks as set forth above.

Interests which had sold their holdings of Northern Pacific stock to the Northern Securities Co. objected, however, to the plan and obtained an injunction, but it was sustained by the Supreme Court of the United States in March, 1905, and was duly carried into effect.

The company's income account for the calendar year 1910 showed: receipts, $174,848; payments, $128,714; surplus, $46,133. In 1911, receipts, $147,296; payments, $29,726; surplus, $117,569. (a) Interest payable without deduction for taxes.

Interest on all the bonds is paid at the office of the company, 165 Broadway, New York.

The 5 per cent. income "A" bonds were originally $7,185,000 and the income "B" bonds $14,841,000. The amounts given above were those outstanding in the hands of the public, June 30, 1914.

In December, 1898, the Union Pacific Railroad Co. offered holders of this company's stock the privilege of exchanging same for Union Pacific common on payment of $3 per share. In October, 1899, holders of A incomes were offered right to exchange them for Union Pacific 4 per cent. bonds, and holders of B bonds to exchange them for Union Pacific preferred stock. On June 30, 1914, the Union Pacific held $41,500 income A bonds and $30,000 income B bonds. The remaining incomes held by the Union Pacific have been canceled.

In 1902 the company created an issue of 4 per cent. and participating gold bonds, subject to call at 102½, and secured by an equal amount at par of stock of the Northern Securities Co. In November, 1904, the company called the 4 per cent. and participating bonds for payment at 102½ and accrued interest on February 1, 1905. There were $36,500,000 of these bonds outstanding and $45,991,000 in the treasury of the Union Pacific.

The refunding collateral trust 4 per cent. mortgage bonds were created in 1904 to replace the 4 per cent. and participating bonds. The authorized issue is $100,000,000, to be secured by the stocks received in exchange for the company's holdings of Northern Securities stock at par, and by the deposit of any other securities at 80 of their cost or appraised value. Included in the collateral for same was $108,000,000 stock of the Southern Pacific Co. Following the decision of the United States Supreme Court requiring the disposal of the Union Pacific system's interest

in the Southern Pacific, the foregoing $108,000,000 of the latter stock was withdrawn from the collateral for the refunding bonds. The collateral now securing the issue comprised on June 30, 1914, $27,577,000 San Pedro, Los Angeles & Salt Lake Railroad 1st 4s; $20,000,000 New York Central & Hudson River Railroad stock; $8,700,000 Illinois Central Railroad stock; $4,018,700 Chicago & North Western Railway common stock, and $1,845,000 Chicago, Milwaukee & St. Paul Railway preferred stock. The Union Pacific Railroad also surrendered to the trustee of the mortgage $55,000,000 of the Oregon Short Line refunding 4s which were in its treasury, reducing the issue to $45,000,000. The bonds are guaranteed, principal and interest, by the Union Pacific Railroad Co. Trustee of the mortgage, Equitable Trust Co., New York.

In December, 1910, the company created a 1st and consolidated mortgage for $150,000,000 authorized, interest limited to 5 per cent. Series A, 4 per cent., $24,000,000 in amount, and series B., $12,360,000 in amount, have been issued, and were all held by the Union Pacific on June 30, 1914.

The earnings since 1899–1900 are included in those of the Union Pacific Railroad Co.

Interest at the full rate of 5 per cent. per annum on the income A bonds, and at 4 per cent. on the B bonds, is paid on the incomes remaining in the hands of the public.

PENNSYLVANIA RAILROAD CO.

A corporation chartered by the Commonwealth of Pennsylvania, April 13, 1846.

The lines operated directly by this company, in its system east of Pittsburgh and Erie, December 31, 1914, consisted of: railroad owned, 2,650.38 miles; railroad operated under lease, or as agent, 1,651.93 miles; trackage, 209.39 miles; total, 4,511.70 miles; canal and ferries, 67 miles additional.

The aggregate mileage of all lines, December 31, 1914, owned, controlled or affiliated with the company, east of Pittsburgh and Erie, was 6,700.23 miles. West of those points, 5,291.10 miles; total 11,991.33 miles.

Locomotives, 3,724; passenger cars, 2,780; freight cars, 148,060; service equipment, 2,120; floating equipment, 340.

See separate statements of the various leased and controlled companies, including the United New Jersey Railroad and Canal Co.; Northern Central Railway; Long Island Railroad; Philadelphia, Baltimore & Washington Railroad; West Jersey & Seashore Railroad; Baltimore, Chesapeake & Atlantic Railway; Western New York & Pennsylvania Railway; New York, Philadelphia & Norfolk Railroad Co.; Belvidere Delaware Railroad, etc.

The lines owned, leased and controlled west of Pittsburgh are operated through the organizations of the Pennsylvania Company, the Pittsburg, Cincinnati, Chicago & St. Louis Railroad Co., the Grand Rapids & Indiana Railroad Co., the Cleveland, Akron & Cincinnati Railway Co. and the Vandalia Railroad Co., and are more fully described under the statements of those companies.

In 1910 a lease of the Northern Central Railway Co., which this company controlled, was arranged for 999 years, from January 1, 1911, but the consummation of the matter was delayed by litigation, the lease going into effect, however, from July 1, 1914.

The company controls large anthracite interests, owned by the Susquehanna Coal Company, to which the properties of the Summit Branch Mining Co. and other companies were transferred in 1913, it being announced that these interests would be sold.

In 1899–1900 the company acquired important interests in the Baltimore & Ohio, Chesapeake & Ohio, and Norfolk & Western roads. In 1906 all the Chesapeake & Ohio stock was sold, together with a majority of its holdings of Norfolk & Western stocks, a profit accruing to the company from these sales. In 1909-12 the company, however, increased its interest in the Norfolk & Western, and on December 31, 1914, held $38,573,400 common and $6,320,000 preferred stock of that company. In 1913 the company's holdings of Baltimore & Ohio Railroad stocks, comprising $5,725,000 common and $14,273,600 preferred, were exchanged for $17,143,800 stock of the Southern Pacific Co., which had been owned by the Union Pacific Railroad Co. See statement of the latter company.

The company has an interest in the stock of the New York, New Haven & Hartford Railroad Co., which amounted, December 31, 1914, to $5,312,500 of said stock.

In the latter part of 1901 the company formulated comprehensive plans for a passenger terminal at Thirty-third street and Seventh avenue, New York City, with tunnels under the North and East Rivers, connecting the main system with the Long Island Railroad, also for a connection between the Long Island Railroad and New England points by a bridge over the East River at Mott Haven, N. Y. The companies to construct and operate the New York tunnels and terminal were the Pennsylvania, New Jersey & New York Railroad, and the Pennsylvania, New York & Long Island Railroad. The New York Connecting Railroad Co. was also organized to furnish a connection with the New York, New Haven & Hartford Railroad system. In February, 1903, preliminary work was begun, the tunnels and terminal being opened to Long Island in August, 1910, and to New Jersey in November, 1910.

Included in the property owned and represented by the capital account are stocks and bonds of other companies having a par value of $427,606,984 and costing $323,557,192. The cash income received from the company's holdings of securities in the form of interest and dividends during 1914 was $11,718,370. The company has established a trust for the purchase of the securities of its leased lines, which, on December 31, 1914, held securities having a par value of $23,437,130, interest and dividends on which are paid into the trust.

The authorized capital of the company was originally $151,700,000. In January, 1901, the Commonwealth of Pennsylvania, by statute, provided for an increase of $100,000,000 in the stock, making it $251,700,000, authorized. In 1903 the amount authorized was further increased to $400,000,000; in 1907 to $500,000,000, and in 1911 to $600,000,000. See MANUAL for 1913 regarding the successive increases in the amount of stock issued through subscriptions for the additional amount. The last operation of this kind was in 1913, the stockholders of record May 5, 1913, being given the right to subscribe at par to the extent of 10 per cent. of their holdings in new stock. This involved the issuance of $45,355,900 of new stock.

The company has paid dividends on its stock in every calendar year since 1850. The dividends were formerly paid semi-annually, May 31 and November 30. The May, 1900, dividend was 2½ per cent., but the November dividend was 2½ per cent. and 1 per cent. extra, making 6 per cent. for the year 1900. In May, 1901, 2½ per cent. was paid, but the November dividend was made 2½ per cent. and 1 per cent. extra, making 6 per cent. for the year 1901. In 1902, 1903, 1904 and 1905 the semi-annual dividends were 3 per cent. regular each, or 6 per cent. per annum. In May, 1906, 3 per cent. was paid, but the November, 1906, dividend was increased to 3½ per cent., thus placing the stock on a basis of 7 per cent. per annum., which continued to be the rate to November, 1907, inclusive. The May, 1908, dividend was, however, 3 per cent., which was also the rate paid in November, 1908, the stock being thus again placed on a 6 per cent. basis.

At the beginning of 1910 it was decided to pay the dividends quarterly instead of semi-annually, the first quarterly payment being 1½ per cent., paid February 28, 1910, which has since been the regular rate. The quarterly dividend periods are February (28), May, August and November. The transfer books do not close on account of dividends.

In 1905 the issue of $100,000,000 3½ per cent. 10-year convertible bonds was authorized. These bonds are convertible at any time at the holder's option into stock at $75 per share for the latter. They can be called for redemption on any interest date, but if called can be converted up to 30 days before the date of redemption.

The general mortgage authorized in March, 1915, is limited to the amount of the outstanding capital stock. The $65,000,000 of 4½ per cent. bonds of this issue were sold in May, 1915, to provide in part for the retirement of the 3½ per cent. convertible bonds.

The New York, Philadelphia & Norfolk 4 per cent. stock trust certificates were created in 1908, when that road was acquired by the purchase of nearly all its $2,500,000 stock at $300 per share, payment being made in the stock trust certificates.

The company had outstanding car trusts on December 31, 1914, to the amount of $23,468,962.

PERE MARQUETTE RAILROAD CO.

A corporation formed under the laws of Michigan and of Indiana, December 11, 1907, being a reorganization, without foreclosure, of the company of the same name. The Pere Marquette Railroad of Indiana was consolidated with this company.

On April 5, 1912, Receivers were appointed for this company by the United States Court, this action being taken in consequence of the Michigan Railroad Commission having refused its assent to financial arrangements necessary to meet maturing indebtedness.

The old Pere Marquette Railroad Co. was formed under the laws of Michigan, November 1, 1899, being a consolidation of the Flint & Pere Marquette Railroad Co., the Detroit, Grand Rapids & Western Railroad Co., and the Chicago & West Michigan Railway Co. Full details of the consolidation were given in the MANUAL for 1900.

A lease of the system to the Cincinnati, Hamilton & Dayton Railway Co. was made for 999 years, from March 1, 1905. In December, 1905, a Receiver was appointed for both the Pere Marquette Railroad and the Cincinnati, Hamilton & Dayton Railway, the lease to the Cincinnati, Hamilton & Dayton being subsequently annulled. See below regarding the terms of the reorganization plan of 1907.

The company's system extends from Suspension Bridge, N. Y., to Detroit and Chicago, via Grand Rapids, Mich., with branches to Toledo, Port Huron, Mich., Saginaw, etc., comprising: road owned, 1,795.15 miles; controlled, 249.96 miles; leased and trackage, 313.40 miles; total, 2,358.31 miles; less leased to other companies, 36.54 miles; total operated, 2,321.77 miles. Included in trackage is St. Thomas, Ont., to Suspension Bridge and Bridgebury, 131.83 miles over the Michigan Central Railroad.

Locomotives, 431; passenger cars, 380; freight cars, 16,558; floating equipment, 8 river and lake car ferry steamers.

The company has a contract with the Baltimore & Ohio Chicago Terminal Railroad Co. for use of the latter's tracks and terminals at Chicago.

In 1903 this company, in conjunction with the Bessemer & Lake Erie Railroad Co., acquired control of the Marquette & Bessemer Dock & Navigation Co.

In addition to the above bonds, there is held by the company $3,000,000 (the entire issue) of Lake Erie & Detroit River Railway Co. 5 per cent. bonds and $175,000 of Flint & Pere Marquette, Port Huron Division, 1st mortgage 5s.

Authority for $3,500,000 of 5 per cent. Receivers' certificates, due in 1915, was obtained in 1912, the same to be redeemable at 101, and rank ahead of the improvement and refunding general mortgage, but to be subordinate to the prior liens.

Under the plan of reorganization of 1907 the company created the $5,000,000 five-year 6 per cent. debentures, due July, 1912, which were subscribed for by the stockholders in order to discharge the floating debt. See below. Interest on the debentures is in default. A Protective Committee for this issue has been formed: Chairman, A. J. Hemphill, New York. Depositaries, Guaranty Trust Co., New York; Old Colony Trust Co., Boston.

In March, 1911, the company sold the $8,000,000 of 6 per cent. notes, due March, 1916, interest March and September, secured by $16,000,000 of 5 per cent. improvement and refunding general mortgage bonds. Interest on the notes due September 1, 1912, and March, 1, 1913, being in default, the Guaranty Trust Co., New York, trustee for the notes, sold the collateral on March 25, 1913. The $16,000,000 of improvement and refunding general mortgage bonds thus sold realized $6,395,236, being purchased by the committee for the noteholders. This sum was applied to the principal and unpaid interest on the notes, which together amounted to $8,521,120, leaving a balance due of $2,125,883. The Protective Committee for the notes: Chairman, William H. Porter, New York. Depositary, Guaranty Trust Co., New York.

The Pere Marquette Railroad consolidated 4 per cent. mortgage, due January, 1951, was for $50,000,000, but no additional bonds can now be issued, the mortgage having been closed. Trustee, Farmers Loan & Trust Co., New York. The interest on the bonds is in default and there is a Protective Committee for them: Chairman, Edwin S. Marston, New York. Depositary, Farmers Loan & Trust Co., New York.

The Pere Marquette Railroad improvement and refunding general mortgage was authorized in 1911 for $60,000,000. Of the total amount, $20,000,000 were made available as collateral for the company's 6 per cent. notes, and $16,000,000 were issued for that purpose. As stated above, the amount of the bonds was sold by the Trustee of the notes on default in interest upon the notes. In addition to the $16,000,000 outstanding, $1,295,000 of the bonds are issued and held by the company. Trustee of the mortgage, Bankers Trust Co., New York.

The Pere Marquette collateral trust bonds, due 1923, are secured by the entire stock of the Lake Erie & Detroit River Railway Co. The bonds are subject to call on any interest day on 60 days' notice. The bonds bear 3 per cent. per annum until July 1, 1905, and 4 per cent. thereafter. Trustee, National Trust Co., Limited, Toronto.

The 4 per cent. refunding mortgage was created in 1905, and is for $60,000,000. Trustee of the mortgage, Central Trust Co., New York. Of the $13,973.000 bonds issued, of which $3,867,000 are owned by the company, $9,207,000 are guaranteed, principal and interest, by the Cincinnati, Hamilton & Dayton Railway Co. The July, 1912, coupon on these bonds was purchased in the interest of the improvement and refunding bonds securing the 6 per cent. notes. There is a Protective Committee for the refunding mortgage 4s: Chairman, Benjamin Strong, Jr., New York. Depositaries, Bankers Trust Co., New York; Old Colony Trust Co., Boston.

Interest on various underlying bonds was defaulted in 1914, including March, 1914, coupons of the Grand Rapids, Belding & Saginaw 5s, the April coupons of the Flint & Pere Marquette 1st 4s and 6s and Port Huron Division 5s; the May, 1914, coupons of the Flint & Pere Marquette consolidated 5s, and the August, 1914, coupons of the Saginaw, Tuscola & Huron 4s. A Protective Committee for the above and other underlying bonds has been formed: Chairman, E. V. R. Thayer, Boston. Secretary, Wallace B. Donham, 17 Court street, Boston. Depositaries, Old Colony Trust Co., Boston; Central Trust Co., New York.

The authorized amount of the Pere Marquette Railroad Co. of Indiana 4 per cent. mortgage is $3,000,000. The bonds are subject to call at 105 at the company's option, are secured by the Indiana lines and the Chicago extension, and are guaranteed, principal and interest, by the parent company and have been assumed by the new company.

The Lake Erie & Detroit River Division 4½ per cent. bonds are secured by the deposit with

the Guaranty Trust Co., trustee, of $3,000,000 5 per cent. bonds of the Lake Erie & Detroit River Railway Co., guaranteed by this company, which owns the entire issue.

This company and the Bessemer & Lake Erie Railroad Co. jointly guarantee an issue of $460,000 4½ per cent. bonds of the Marquette & Bessemer Dock & Navigation Co.

The reorganization plan of 1907 comprehended the subscription by the old stockholders for the $5,000,000 of 6 per cent. debentures at par, receiving 115 per cent. in new 1st preferred for the old preferred and 120 per cent. in new common for the old common holdings; those not subscribing receiving new 2d preferred or common stock to the same amount as their original holdings.

Interest on the bonds of the Reading Company and its subsidiaries is payable without deduction for income tax.

A $20,000,000 purchase-money 6 per cent. mortgage loan of 1896 of the Philadelphia & Reading Railway Co., due 1997, is all held by the Reading Company, and is pledged as security for the latter's general 4 per cent. mortgage. The general mortgage is also secured by deposit of $14,267,186 bonds of other companies and $27,099,225 stocks of other companies.

The general mortgage of the Reading Company is for $135,000,000, of which $51,109,357 were reserved to take up underlying bonds of the railway and the coal and iron companies. The bonds have a sinking fund of 5 cents per ton on all coal mined in any year provided a dividend is paid on the stock, and if the aggregate of dividends exceeds that sum the sinking fund payment shall equal the dividends. Under this provision, $6,926,000 of the bonds had been retired up to June 30, 1914. At that date the company also had $5,140,000 of the bonds in its treasury. Trustee of the mortgage, Central Trust Co., New York. Interest is paid at the office of Drexel & Co., Philadelphia, and at the office of J. P. Morgan & Co., New York.

The Reading Company's Jersey Central collateral trust 4 per cent. bonds were created in 1901 to provide for the purchase of control of the Central Railroad of New Jersey. They are secured by deposit with the Pennsylvania Company for Insurance on Lives and Granting Annuities, Philadelphia, trustee, of $14,504,000 stock of the Central Railroad Co. of New Jersey, $1,495,000 stock of the Perkiomen Railroad Co., being all but $5,000 of that stock, and $440,000 stock of the Port Reading Railroad Co. The mortgage provides for a total issue of $45,000,000, but additional bonds can be issued only to acquire further amounts of Jersey Central stock. The bonds can be redeemed at 105 and interest after April 1, 1906, on six months' notice. Interest is paid at the company's office, Philadelphia, and at the office of J. P. Morgan & Co., New York.

The Reading Company's Wilmington & Northern collateral trust certificates were created in 1900. They are secured by deposit with Girard Trust Co., Philadelphia, trustee, of nearly all the $1,500,000 stock of the Wilmington & Northern Railroad Co., which road is leased to the Philadelphia & Reading Railway Co. The bonds have no date of maturity, but are redeemable at 105 and interest. Agent for payment of interest, Girard Trust Co., Philadelphia.

THE ROCK ISLAND CO.

CHICAGO, ROCK ISLAND & PACIFIC RAILROAD CO.

The Rock Island Co. is a corporation formed under the laws of New Jersey, July 31, 1902. It was organized as a holding or investment corporation, its charter vesting it with power to acquire and hold, sell or dispose of, mortgage or pledge, the stocks or securities of other corporations, and to exercise the voting powers which may attach to the same.

The company owns all of the $145,000,000 stock of the Chicago, Rock Island & Pacific Railroad Co., which acquired control of the Chicago, Rock Island & Pacific Railway Co., but lost the same in 1914, through the foreclosure of the collateral trust bonds secured by the stock of the Railway Company. See below. The Chicago, Rock Island & Pacific Railroad Co. also controlled the St. Louis & San Francisco Railroad Co. but disposed of its interest in the latter company in 1909.

Prior to the segregation of the St. Louis & San Francisco and its affiliated lines, the total mileage of railways controlled by The Rock Island Co. was on June 30, 1909, 14,578.05 miles. In 1904 it also acquired $14,320,000 common and $4,470,000 preferred stock of the Chicago & Alton Railway Co., but in August, 1907, sold most of this stock, which carried control of the Chicago & Alton property, to the Toledo, St. Louis & Western Railway Co.

	pref., 54,000,000	pref., 49,947,450	$140,835,652

The preferred stock is non-cumulative, at the rate of 4 per cent., from 1903 to 1909, inclusive. Commencing with 1910, it became entitled to 5 per cent., non-cumulative, until and including 1916, and thereafter to 6 per cent., non-cumulative. The preferred stock also has a preference up to the par value thereof as to assets of the company in case of a dissolution.

Stock is transferred at the office of the company, New York. Registrar, Bankers Trust Co., New York.

The first quarterly dividend on the preferred stock of The Rock Island Co. was 1 per cent., paid February 2, 1903, and quarterly payments at that rate were made in February, May, August and November. The February, 1906, dividend was, however, passed, and none has since been paid.

The stocks of The Rock Island Co. were issued originally under a plan announced in August, 1902, by which holders of stock of the old the Chicago, Rock Island & Pacific Railway Co. were offered in exchange for each $100 of the old stock the following securities:

$100 in 4 per cent. collateral trust bonds of the Chicago, Rock Island & Pacific Railroad Co.
$100 in common stock of The Rock Island Co.
$70 in preferred stock of The Rock Island Co.

Of the $74,877,200 outstanding stock of the Chicago, Rock Island & Pacific Railway Co. ($75,000,000 authorized) $71,353,500 was thus acquired by the Chicago, Rock Island & Pacific Railroad Co.

In February, 1914, in view of the impending default in the May interest upon the Chicago, Rock Island & Pacific Railroad Company's collateral trust bonds, a Protective Committee was formed to represent the common and preferred stockholders of The Rock Island Co. Chairman, W. A. Read, New York. Secretary, F. E. Mowle, 28 Nassau street, New York. Depositary, Bankers Trust Co., New York.

In June, 1914, the above committee, in conjunction with the committee for the railroad company's collateral trust 4 per cent. bonds, submitted a plan for the reorganization of the companies, the chief feature of which was the financing of the Chicago, Rock Island & Pacific Railway Company's financial requirements through an issue of new preferred stock of that company. Holders of stock of the Rock Island Co. were to participate on the following basis: Holders of The Rock Island Co. common, paying 15 per cent. cash of the par value of their stock, would receive 15 per cent. in the railway company's new preferred stock and 10¾ per cent. in the old or common stock of the railway. Holders of The Rock Island Co. preferred, paying 15 per cent. cash, were to receive 15 per cent. in the railway company's new preferred and 14 per cent. in the old or common stock of the railway. The Chicago, Rock Island & Pacific Railroad Co.'s collateral trust was to be foreclosed and the holders of the bonds were to receive 62½ per cent. of the face thereof in the old or common stock of the railway company, which was the collateral security of the bonds. The bondholders were also to be allowed to subscribe for the preferred and common stock of the railway company not taken by the stockholders of The Rock Island Co.

This plan, however, did not receive support, and was abandoned in July, 1914, the deposited stock of The Rock Island Co. being returned to its holders.

CHICAGO, ROCK ISLAND & PACIFIC RAILROAD CO.—A corporation formed under the laws of Iowa, July 31, 1902. The purpose of the company's organization is explained in full above in connection with The Rock Island Co. Following the foreclosure of the collateral trust mortgage, leaving a large deficiency judgment against this company, while its only asset of consequence, the equity in the stock of the Chicago, Rock Island & Pacific Railway, which was the collateral for said bonds, had been sold, a Receiver for this company was appointed on January 19, 1915.

The statement of the Chicago, Rock Island & Pacific *Railway* Co., which in former yearly editions of the MANUAL, was given in connection with that of the Rock Island Co. and that of the *Railroad*, is now given separately in its regular alphabetical order in this edition.

Stock.....Par $100.....Authorized, $145,000,000.....Issued, $145,000,000

All the company's stock, except shares to qualify directors, is owned by The Rock Island Co., having been issued and acquired under the arrangements set forth above.

FUNDED DEBT

Gold bonds, 5 per cent., due Sept., 1917, March and Sept..... $7,500,000

The Chicago Rock Island & Pacific Railroad Co. had an issue of $71,353,500. Collateral trust 4 per cent. gold bonds, due November, 2002, May and November, which were issued in exchange for the stock of the Chicago, Rock Island & Pacific Railway Co. They were secured by the deposit with the Central Trust Co., New York, under a collateral trust agreement of stock of the Chicago, Rock Island & Pacific Railway Co. equal to the amount of the bonds outstanding. The total amount of bonds to be issued under the agreement was limited to $75,000,000, that being the authorized amount of the railway's stock. This company also pledges itself to deposit with the trust company, under the said agreement, any additional amount of the old stock which it may acquire. The March, 1914, dividend upon the stock of the railway was passed depriving the railroad company of revenue therefrom, and the May, 1914, coupon of the collateral trust bonds was accordingly defaulted.

In February, 1914, a Protective Committee for the collateral trust 4 per cent. bonds was formed: Chairman, J. N. Wallace, New York. Secretary, C. E. Sigler, 54 Wall street, New York. Depositary, Central Trust Co, New York. A plan of reorganization for The Rock Island Co., The Chicago Rock Island & Pacific Railroad and the railway company was submitted in June, 1914. as set forth above in the statement of The Rock Island Co. This plan proved impracticable and was abandoned.

Foreclosure proceedings under the collateral trust mortgage were instituted in the summer of 1914 and judgment obtained thereunder. After negotiations between the New York Protective

Committee and other holders of the bonds, especially a Boston committee, N. L. Amster, chairman, an agreement was arrived at in December, 1914, and the $71,353,500 stock of the railway was sold under the foreclosure on December 22, 1914, being purchased on behalf of the Protective Committee for $7,135,350, leaving a deficiency against the railroad company of $68,239,258.

The plan of distribution agreed on by the Protective Committee and the Boston committee involved the delivery to the holder of each Central Trust Co. certificate and of deposit for a $1,000 bond of 10 shares of Chicago, Rock Island & Pacific Railway stock, on payment in cash of $4.45 per bond, the depositing bondholders to have the right to subscribe at $10.29½ per share for any of the Railway stock which was left unexchanged. A total of $68,803,000 out of the $71,353,000 bonds were exchanged when the offer expired on February 9, 1915. A further extension of the time to deposit the bonds was made until February 26, 1915, at which time $70,171,000 thereof had been deposited.

The company had $17,364,180 of collateral trust 5 per cent. bonds, due 1913, which were issued in part payment for the common stock of the St. Louis & San Francisco Railroad Co. The amount was limited to $18,500,000, and the bonds were secured by the deposit with the Central Trust Co. of New York, of the $28,940,300 St. Louis & San Francisco common stock acquired by this company. The right was reserved to call these bonds at 102½ and interest, and they were under this provision called and paid February 1, 1910. To provide part of the funds for the redemption of these 5 per cent. bonds, the issue of $7,500,000 5 per cent. gold bonds, due September 1, 1913, was issued and sold. On the maturity of the last named issue the bonds were extended for four years, all of the issue being held by the Chicago, Rock Island & Pacific Railway Co.

Receiver, Walter C. Noyes, New York. President, T. M. Schumacher, New York. Vice-President, Treasurer and Assistant Secretary, J. J. Quinlan, New York. Secretary and Assistant Treasurer, F. W. Sargent, Des Moines, Ia.

There are also separate receiverships for the St. Louis, San Francisco & Texas Railway, the Fort Worth & Rio Grande Railway, and the Brownwood North & South Railway.

The 1st mortgage 4 per cent. bonds are $75,000,000, authorized, and are a 1st mortgage on over 200 miles of road. They are now subject to call on any interest date. Trustee, Continental Trust Co., Baltimore. Of the total amount $29,725,000 were to retire underlying bonds of the system, and $12,500,000 for improvements and extensions. Interest is paid at the company's office, New York.

The adjustment plan for this company, issued by a committee July, 1, 1909, and declared operative in September, 1909, did not involve a foreclosure. To provide for future capital requirements, the refunding 50-year 4 per cent. bond issue for $125,000,000 was authorized. The plan included the creation of the adjustment income bonds entitled to 5 per cent., if earned, but cumulative as to such interest. Stockholders had the right to subscribe for these bonds at 70 to the extent of 30 per cent. of their holdings. A syndicate underwrote $18,000,000 of the adjustments at 70, less commission, thus providing cash for the retirement of the Receivers' certificates (amounting to $7,500,000), as well as for the payment of $700,000 of 6 per cent. notes, floating debt and past due coupons on the company's 1st mortgage bonds. The $6,345,000 general mortgage 5 per cent. bonds were exchanged for adjustment bonds and the 1st mortgage bonds stamped as subject to call on any interest date. The plan reduced the fixed charges of the company from $4,261,000 to $3,288,000 per annum.

The full 2½ per cent. for the first six months' interest on the adjustment bonds was paid August 1, 1910, and the subsequent 2½ per cent. coupons have been paid on February 1 and August 1, in 1911, 1912, 1913 and 1914. On February 1, 1915, 2½ per cent. was again paid.

THE SOUTHERN PACIFIC CO.

A corporation organized under the laws of the State of Kentucky, March 17, 1884, for ıe purpose of unifying in management lines of railroad extending from New Orleans, La., to ın Francisco, Cal., to Portland, Ore., and to Ogden, Utah.

In February, 1901, the Union Pacific Railroad Co. purchased a considerable interest in the ɔck of this company. In December, 1912, the United States Supreme Court decided that the rnership of $126,650,000 of this company's stock by the Union Pacific Railroad Co. was :gal and directed that it divest itself of the same. See statement of the Union Pacific ilroad Co. for details of arrangement carried into effect in September, 1913, whereby $38,292,-) of the Union Pacific holdings of Southern Pacific stock were sold to the Pennsylvania ilroad Co. and the remainder of said holdings, amounting to $88,357,600, were placed in trust, l certificates of an interest on the same were sold to the Union Pacific's stockholders, the trust lificates being exchangeable for regular stock of this company when owned by one who was a stockholder of the Union Pacific.

The properties and mileage constituting the Southern Pacific system June 30, 1914, were as ɔws:

The decision of the United States Supreme Court in December, 2, compelling the Union Pacific Railroad Co. to divest itself of any interest in the Southern cific provided that the Union Pacific might acquire the line from Ogden, Utah, to San Fran- co, owned by the Central Pacific. This not having been accomplished a suit was instituted by Attorney General of the United States to compel the Southern Pacific Co. to relinquish con- l of the Central Pacific, which suit was still in progress in the Spring of 1915.

Up to June 30, 1914, there had been completed 1,242.42 miles of these lines, the parent company after that date having made advances to the Southern Pacific Railroad Co. of Mexico up to June 30, 1912, to the amount of $38,255,739. On April 7, 1909, the stockholders ratified an increase of the authorized common stock from $200,000,000 to $300,000,000. In April, 1914, a further increase of $20,000,000 was ratified.

SOUTHERN RAILWAY CO.

A corporation chartered February 20, 1894, by the Legislature of Virginia to succeed the Richmond & Danville Railroad Co. The company purchased the properties of the Richmond & West Point Terminal Railroad and Warehouse Co., which were reorganized under the plan submitted by Drexel, Morgan & Co. in May, 1893, and modified in February, 1894.

Full details of the reorganization of the property were given in the MANUAL for 1899. The present company entered into possession of the principal lines July 1, 1894.

Road operated June 30, 1914, as follows:

	Miles		Miles
Owned	4,231.95	Operated under agreement	11.40
Controlled	412.41	Trackage	484.70
Controlled and leased	1,088.16		
Leased	781.32	Total mileage	7,009.94

In addition to the above mileage this company controls the following properties, which are operated under their own managements:

Alabama Great Southern Railroad, 309 miles; Mobile & Ohio Railroad, 1,122 miles; Augusta Southern Railroad, 83 miles; Georgia Southern & Florida Railway, 395 miles; Northern Alabama, 113 miles; Virginia & Southwestern Railway, 240 miles; Cincinnati, New Orleans & Texas Pacific Railway, 335 miles: Chicago, Indianapolis & Louisville Railroad (joint control), 617 miles; Blue Ridge Railway, 44 miles; Danville & Western Railway, 83 miles; Tallulah Falls Railway, 58 miles.

This company has a one-sixth interest in the stock of the Richmond-Washington Co. See separate statement of the latter company.

The company owns an interest in the York River Line of boats between Baltimore and West Point, Va., and the Chesapeake Line between Baltimore and Norfolk.

The company, with the Cincinnati, Hamilton & Dayton, has a joint control of the Cincinnati, New Orleans & Texas Pacific Railway Co., lessee of the Cincinnati Southern.

In February, 1901, this company acquired control of the Mobile & Ohio Railroad by a purchase of its stock and general mortgage bonds. In August, 1906, it acquired the entire stock of the Virginia & Southwestern Railway Co.

The system comprises nearly all the lines of the former Richmond & Danville; East Tennessee, Virginia & Georgia, and Georgia Pacific companies, which were controlled or operated by the Richmond Terminal Co. In January, 1898, the Memphis & Charleston was acquired by this company, and in 1899 the Mobile & Birmingham.

Locomotives, 1,663; passenger cars, 1,134; freight cars, 47,992; service equipment, 1,340; floating equipment, 22.

Stock..... Par $100..... Authorized, $350,000,000 Issued { com., $120,000,000 / pref., 60,000,000 } $180,000,000

The preferred stock is 5 per cent., non-cumulative. Both classes of stock were held in a voting trust, J. Pierpont Morgan, George F. Baker, Jr., and Charles Lanier, trustees for five years, or until a dividend of 5 per cent. had been paid in one year on preferred stock. In 1902 practically all the stockholders assented to an extension of the voting trust until October, 1907, and thereafter until a majority of the assented stock should vote in favor of dissolving the trust, or unless terminated by the action of the trustees. On June 30, 1914, the surviving voting trustees gave notice of such dissolution of the trust taking effect upon the exchange of the voting trust certificates for regular stock on and after July 31, 1914.

In 1900 the Legislature of Virginia authorized the company, with the assent of its stock holders, to reduce the amount of the common stock outstanding from $120,000,000 to $60,000,000

but no steps to that end have been taken beyond the acceptance of this provision of the amended charter.

Transfer Agents, J. P. Morgan & Co., New York; J. J. Lillis, Richmond, Va. Registrars, Central Trust Co., New York; Old Dominion Trust Co., Richmond, Va.

A dividend of 1 per cent. on the preferred stock, the first in the company's history, was declared in December, 1896, payable January 4, 1897. A second dividend of 1 per cent. on the preferred was paid January 20, 1898. In January, 1899, 1 per cent. was paid on the preferred; 1 per cent. in October, 1899; 1½ per cent. April 6, 1900; and 1½ per cent. October 16, 1900, this making 3 per cent. paid on the preferred for the fiscal year 1899-1900. The half-yearly dividend, paid April 9, 1901, was increased to 2 per cent., and the same rate was paid October 16, 1901. The March, 1902, dividend was increased to 2½ per cent., which remained the regular semi-annual rate on the preferred stock until October 17, 1907, when only 1¾ per cent. was paid, which was taken from the accumulated surplus. No dividends were paid thereafter until 1 per cent. was declared in February, 1911, payable April 20, 1911. On October 28, 1911, also paid 1 per cent., making 2 per cent. for that year. In April, 1912, paid 2 per cent, and in October, 1912, and April and October, 1913, 2½ per cent. In April, 1914, 2½ per cent. was paid, and in October, 1914, there was declared a dividend of 2 per cent. to preferred stockholders of record October 31, 1914, the same to be in 5-year dividend scrip, due November 1, 1919, and bearing interest at 4 per cent. per annum, payable May 1 and November 1.

Locomotives, 1,476; passenger cars, 1,170; freight cars, 37,817; service cars, 3,637; floating equipment, 8.

The Union Pacific Railroad Co. owns all the $100,000 000 stock of the Oregon Short Line Railroad Co. The Oregon Short Line Railroad Co. owns $49,998,500 of the $50,000,000 stock of the Oregon-Washington Railroad & Navigation Co. See separate statements of the two latter companies. The Oregon-Washington Railroad & Navigation Co. (organized in December, 1910) took over the properties of the Oregon Railroad & Navigation Co. and of several other companies in Oregon, Washington and Idaho which had been constructed as branches or feeders to the system.

In February, 1901, this company acquired a large amount of the stock of the Southern Pacific Co. carrying control of the companies owned or controlled by that corporation, which included the Pacific Mail Steamship Co. On June 30, 1912, $126,650,000 of Southern Pacific Co. stock was held in the interest of the Union Pacific, the same being owned by the Oregon Short Line Railroad Co. The United States Government brought suit to set aside the alleged control of the Southern Pacific in the interest of the Union Pacific, but in June, 1911, the lower United States Court decided in favor of this company. In December, 1912, the Supreme Court of the United States reversed this, deciding that the Union Pacific's interest in the Southern Pacific was contrary to law and that its holdings of Southern Pacific stock should be disposed of or segregated within three months. Under date of February 10, 1913, the Union Pacific submitted a plan, which had been approved by the Attorney-General of the United States, for carrying the decree into effect. The terms of the plan included the purchase by the Union Pacific from the Southern Pacific of the stock of the Central Pacific Railway, thus giving the Union Pacific a continuous through line from Omaha to San Francisco. It further provided that the $126,650,000 Southern Pacific stock owned by the Union Pacific should be offered for subscription at par to the stockholders of the Union Pacific and the Southern Pacific of record February 28, 1913, subscriptions to be made on March 21, 1913. The Railroad Commission of California, however, imposed some additional terms regarding properties in that State included in the plan and it was formally abandoned in March, 1913, the offer of the $126,600,000 Southern Pacific stock for subscription by the stockholders of the two companies being withdrawn.

Other plans to accomplish the segregation were then considered, but without result until a plan was formulated on suggestions by the Court and the Attorney-General, the same being approved by the Court on June 30, 1913. It provided that the Union Pacific Co. should exchange $38,292,400 of its holdings of Southern Pacific stock for $21,273,600 of preferred, and $21,273,600 common stock of the Baltimore & Ohio Railroad Co. held by the Pennsylvania Railroad Co. It further provided that the remaining $88,357,600 Southern Pacific, held by the Union Pacific, should be deposited in the Central Trust Co., New York, which should issue certificates of a beneficiary interest in the same, share for share, but under conditions that the certificates of a beneficiary interest could not be exchanged for the regular stock of the Southern Pacific Co. by any owner of Union Pacific Stock. The decree required the sale of the trustees' certificates by November 1, 1913. They were offered for subscription at $92 per share to the stockholders, common and preferred, of the Union Pacific Railroad Co. on or before September 2, 1913, the operation being underwritten by a syndicate. This arrangement was carried out. At the date of the Union Pacific's annual report for 1913-14 its Southern Pacific's stock account showed a profit on the books of $16,175,559.

In 1901 this company acquired, through the Oregon Short Line Railroad Co., large holdings of Northern Pacific stock, which in 1902 were exchanged for $82,491,871 stock of the Northern Securities Co. and $8,900,007 in cash. After the dissolution of the Northern Securities Co. in 1905 this company disposed of the greater portion of the holdings of Northern Pacific and Great Northern preferred stocks which came into its possession. Its remaining interests in the Northern Pacific stock and Great Northern Iron Ore Properties shares were disposed of in 1909-10 and its remaining interest of $724,900 in Northern Securities Co. "stubs" was disposed of in 1911-12.

On June 30, 1914, the Union Pacific Railroad Co. held investment stocks as follows: Chicago & Alton Railroad preferred, $10,343,100; Illinois Central stock, $13,800,000; Railroad Securities Co., common, $3,484,920; Railroad Securities Co., preferred, $1,936,900, Baltimore & Ohio, common, $3,594,035; Baltimore and Ohio, preferred, $1,805,992 and $7,665,000 Chicago & Alton Railroad general mortgage 6 per cent. bonds: $2,000,000 Chicago & Northwestern

Railway, general mortgage 4s; $3,975,000 Chicago, Milwaukee & St. Paul Railway general mortgage 4½s; $2,500,000 Chicago, Milwaukee & St. Paul Railway general and refunding 4½s; $6,399,000 Southern Pacific (Central Pacific stock) collateral 4s; $6,000,000 Southern Pacific, San Francisco Terminal 1st 4s, and $14,568,000 Southern Pacific Railroad 1st refunding mortgage 4s. The Union Pacific also held on June 30, 1914, $10,079,000 equipment trust certificates of various leading railroad companies and $16,715,000 short term notes of such companies. In the treasury of the Oregon Short Line Railroad Co. there were, on that date, $4,018,700 Chicago & Northwestern common; $1,845,000 Chicago, Milwaukee & St. Paul preferred; $8,700,000 Illinois Central stock; $20,000,000 New York Central & Hudson River Railroad stock and $3,007,331 Pacific Mail Steamship Co. purchase money 6 per cent. notes.

See below regarding the distribution in 1914 of the major part of the company's holdings of Baltimore & Ohio stock as a dividend to its common stockholders. The terms of the extra dividend involved $50,013,765 of Baltimore & Ohio common and $26,674,008 of Baltimore & Ohio preferred, together with $6,668,502 cash.

The preferred stock is entitled to 4 per cent., non-cumulative dividends, out of the yearly earnings, but is not entitled to further participation in any surplus. In 1899 the preferred was increased to $100,000,000, and in May, 1905, to $200,000,000, the purpose being, it was stated, to finance future capital requirements.

The authorized common stock was increased from $61,000,000 to $88,460,100 in January, 1899; to $97,687,600 in October, 1899, and to $196,178,700 in 1901; these increases being to provide for acquisition of securities of constituent companies and for conversion of convertible bonds. In June, 1907, a further increase of $100,000,000 in the common was authorized to provide for the conversion of the new 4 per cent. convertible bonds of 1907.

Transfer agency, 165 Broadway, New York. Registrar, Bankers Trust Co., New York.

This company began the payment of dividends on the new preferred stock with 1½ per cent. October 31, 1898. On April 19, 1899, 1¼ per cent. was paid, and in October, 1899, company was put on a 2 per cent. semi-annual basis, making the full 4 per cent. to which the preferred is entitled. The preferred dividends are paid, 2 per cent. each, April and October. The first dividend of 1½ per cent. on the common was declared in February, 1900, payable April 2, 1900. October 1, 1900, a second dividend of 2 per cent. was paid on the common, putting it on a 4 per cent. basis, and such dividends were regularly paid in April and October, until October, 1905, when 2½ per cent. was paid, thus putting the stock on a 5 per cent. basis. The April, 1906, dividend was however, again increased to 3 per cent., making the annual rate 6 per cent., and on October 1, 1906, 5 per cent. semi-annual was paid, of which it was stated 3 per cent. was from operations and 2 per cent. from investments. The April 1, 1907, dividend was also 5 per cent. Beginning with July 1, 1907, the dividends on the common were made quarterly, payable 2½ per cent. each, in January (1), April, July and October, or 10 per cent. per annum, which was the regular rate until April, 1914, inclusive. The July, 1914, dividend was reduced to 2 per cent. quarterly, or 8 per cent. per annum, the change being made in connection with the distribution of the company's holdings of Baltimore & Ohio stock to the common shareholders. See below.

On January 8, 1914, the directors decided to pay on April 1, 1914, an extra dividend on the common stock of the company of record, March 2, 1914, the same to consist of $3 per share, or 3 per cent. in cash, together with 12 per cent. in Baltimore & Ohio preferred stock, and 22½ per cent. in Baltimore & Ohio common stock. It was also recommended that after the payment of the extra dividend, the regular dividend on the common stock should be reduced from 10 per cent. per annum to 8 per cent. Suits were instituted by holders of Union Pacific preferred stock against this distribution to the common shareholders, the claim advanced being that the preferred was entitled to share with the common in the distribution or to enjoin the same. A decision in favor of the company's action in the matter was rendered in July, 1914, and the extra dividend was paid July 20, 1914.

Earnings as given are those of the entire system.

Earnings for 1906-07 and thereafter are stated in accordance with the new Interstate Commerce Commission classification. The net for 1905-06 and prior thereto, included income from investments, etc.

In 1912-13 additions and betterments amounted to $5,550,598, which was charged to capital account. In 1913-14, $16,375.713 was thus charged to the same account.

The balance to the credit of profit and loss, June 30, 1910, was $115,796,646. On June 30, 1911, this item was $186,914,930, the increase being mainly due to crediting the account during 1910-11 with $53,728, 678 for profits from sale of Northern Securities stock and stocks received in exchange therefor. On June 30, 1912, the profit and loss account was $194,545,768.

On June 30, 1913, the profit and loss account was $151,153,386. The company's report for 1912-13 explained this reduction as being principally due to opening a new account—Reserve for Depreciation of Securities—to which the amount of $50,000,000 had been charged. On June 30, 1914, the profit and loss account was $90,586,424, the reduction being principally due to the extra dividend referred to above.

THE WABASH RAILROAD CO.

A corporation formed July 29, 1889, by the consolidation of the Wabash Western Railway Co. with lines east of the Mississippi, both sections having formed part of the Wabash, St. Louis & Pacific Railway Co., which was placed in the hands of Receivers in 1884, the lines west of the Mississippi being reorganized in 1887 as the Wabash Western Railroad Co. In 1889 the lines east of the Mississippi were foreclosed and the consolidation effected as above.

On December 18, 1911, the United States Circuit Court at St. Louis appointed Receivers for the company on application of a creditor. The January 1, 1912, interest on the 1st refunding and extension bonds of the company was defaulted and negotiations with a view to a reorganization of the company were in progress, though no plan to that end had been announced up to April, 1915.

Road owned, 2,034.55 miles; leased, 6.17 miles; operated under trackage arrangements, 473.88 miles; total operated, June 30, 1914, 2,514.60 miles.

The main lines of this system extend from Toledo and Detroit to St. Louis, Chicago, Kansas City, Omaha and Des Moines, with numerous branches, and trackage from Detroit to Buffalo over the Grand Trunk Railway. The company also had a controlling interest in the Wabash-Pittsburg Terminal Railway, which controls the Wheeling & Lake Erie Railroad Co. See separate statements of those companies. The company rents the use of the Lehigh Valley Railroad Co.'s terminals at Buffalo, and has a one-fifth interest in the stock of Chicago & Western Indiana, using the latter's terminals at Chicago.

The Missouri Pacific Railway Co. on June 30, 1914, held $9,826,200 of preferred stock, $2,826,200 common stock and $2,913,200 refunding and extension 4 per cent. bonds of this company.

Locomotives, 701; passenger cars, 426; freight cars, 23,114.

The preferred stock is 7 per cent., non-cumulative.

The Receivers' certificates rank ahead of the refunding and extension mortgage and were authorized for $16,000,000.

The 1st mortgage and debentures cover all lines both east and west of the Mississippi owned by the company in 1889. Sufficient 1st mortgage bonds were reserved to provide funds to retire prior liens on lines west of the Mississippi River. The 2d mortgage covered only 1,012 miles of lines east of the Mississippi, but included a 1st lien on rolling stock valued at about $3,000,000. Trustee of 1st mortgage, Central Trust Co., New York. Trustee of 2d mortgage, Metropolitan Trust Co., New York. Interest on the 1st and 2d mortgage bonds is paid at the Central Trust Co., New York.

The Terminal 4 per cent. 1st lien bonds, created in January, 1904, are $10,000,000 authorized, the outstanding bonds covering terminal properties at St. Louis. Trustee, Bankers Trust Co., New York. Agent for payment of interest, Equitable Trust Co., New York.

The company's income debenture bonds created at the time of the reorganization were divided into Series A, $3,500,000, and Series B, $26,500,000. Under their terms holders were entitled in the order of the bonds to interest up to 6 per cent. per annum if earned, and had one vote at the company's meetings for each $100 par value of their bonds, also to nominate one-half of the directors. Until 1909 the A debentures were redeemable at par. Series A received 6 per cent. for years ending June 30, 1890, 1891, 1892 and 1893; 1 per cent. for the year ending June 30, 1896, and 6 per cent. for 1900 to 1903, inclusive, the payments being made yearly in the ensuing January. In January, 1904, 3 per cent. was paid on the As, but the 1904 interest was passed. In July, 1907, 6 per cent. was paid. No interest was paid on the B debentures until July, 1907, when they received 1 per cent. Since the new arrangement was made payments of interest on outstanding debentures have been as follows: on the A bonds, in July, 1907, 6 per cent.; in 1908, 3 per cent.; in 1909 and 1910, 6 per cent.; in January, 1911, 3 per cent. On the B bonds, in 1907, 1 per cent.; in 1908, 1 per cent.; in 1909, 2 per cent.; in 1910, 4 per cent.; in 1911, 4 per cent. No interest has been paid on the debentures since the receivership of the company in 1911.

In 1906 an agreement was reached between the company and the representatives of the debenture incomes, the plan being to retire the bonds in question and also to provide for future capital requirements. The plan involved the increase of the common stock to $159,500,000 and the preferred to $40,500,000, with the creation of a new 1st refunding and extension mortgage for $200,000,000, of which $22,862,500 would be required for the retirement of the debenture, sufficient of the issue to be reserved to refund or retire all existing liens and the balance to be used only for extensions or improvements. This plan was formally ratified in October, 1906, and the issue of 4 per cent. refunding and extension bonds was authorized to carry out the retirement of the debenture. The offer submitted to the debenture holders was as follows: each $1,000 A debenture to be exchanged for $795, in new 4 per cent. bonds, $580 in preferred stock and $580 in common stock, while each $1,000 B debenture was to be exchanged for $720 in new bonds, and $520 each of preferred and common stock. All the A debentures and all but $1,256,000 of the B debentures have been exchanged.

The 1st refunding and extension mortgage is for $200,000,000. Trustee and agent for the payment of interest, Equitable Trust Co., New York. The interest due January 1, 1912, was not paid, but the two committees which requested deposits of said bonds made arrangements to advance the amount of the January, 1912, coupons to depositing bondholders.

A readjustment committee of the management was constituted in December, 1911, chairman, Winslow S. Pierce, New York, to readjust the company's finances or reorganize it. Said commit-

tee requested deposits of the 1st and refunding and extension bonds with the Equitable Trust Co., New York. A Protective Committee for the refunding and extension bonds was also formed in January, 1912: Chairman, James N. Wallace, New York. Depositary, Central Trust Co., New York.

The company had $10,000,000 4½ per cent. notes, created in 1905 for five years, of which $5,000,000 were extended in 1910 for three years, maturing May 1, 1913. Neither the May, 1913, interest nor the principal of the notes was paid. There is a committee for the noteholders: Chairman, John W. Platten, New York. Depositary, United States Mortgage & Trust Co., New York. The collateral securing the notes was sold in March, 1915, being bid in by the aforesaid committee.

ALLIS-CHALMERS MANUFACTURING CO.

A corporation formed under the laws of Delaware, March 15, 1913, succeeding the Allis-Chalmers Co., which was reorganized under the plan described below. The Allis-Chalmers Co., formed under the laws of New Jersey, May, 1901, was organized to manufacture mining machinery, steam engines and heavy machinery of various kinds. It originally acquired the plants of the following concerns:

E. P. Allis Co., Milwaukee.	Gates Iron Works, Chicago.
Fraser & Chalmers, Incorporated, Chicago.	Dickson Manufacturing Co., Scranton, Pa.

In October, 1905, the old company purchased the Bullock Electric Works at Cincinnati, and the present company controls the Bullock Electric Manufacturing Co. through ownership of its common stock.

The old Allis-Chalmers Co. had a capitalization consisting of $19,820,000 common, and $16,050,000 of 7 per cent. cumulative preferred stock, together with $11,148,000 of 1st mortgage 5 per cent. bonds, due July, 1936. The January, 1912, interest on the bonds was defaulted, and in anticipation thereof, in December, 1911, a committee for the bondholders was formed. Chairman, James N. Wallace, New York; Depositary, Central Trust Co., New York. On April 6, 1912, Receivers were appointed for the old company.

The Bondholders' Committee under date of March 18, 1912, issued a reorganization plan, which was declared operative May 2, 1912. The plan provided for foreclosure and the acquisition of the properties by a new company. The holders of the 1st mortgage 5s were offered 100 per cent. in new preferred and 35 per cent. in new common stock, the January 1, 1912, coupon to be paid in cash on deposit of the bonds. Holders of old preferred stock were to pay an assessment of 20 per cent. and on such payment to receive 20 per cent. in new preferred and 90 per cent. in new common stock. Holders of old common stock were to pay an assessment of 10 per cent. and to receive 10 per cent. in new preferred and 35 per cent. in new common. It was provided that the assessment should be payable in installments as called for by the committee, the last installment being 20 per cent. May 15, 1913. The assessments were underwritten by a syndicate. A decree of foreclosure was granted December 4, 1912, and the properties were sold thereunder and acquired by the Reorganization Committee. The present company took possession on April 16, 1913.

Stock..Par $100..Authorized { com., $26,000,000 / pref., 16,500,000 } Issued { com., $26,000,000 / pref., 16,500,000 } $42,500,000

The preferred stock is 5 per cent., cumulative from January 1, 1913, becoming 6 per cent. cumulative from January 1, 1915, and 7 per cent. cumulative from January 1, 1917, and has preference as to both dividends and assets in case of the company's dissolution.

Both the preferred and common stocks are held in a voting trust for 5 years, the voting trustees being James N. Wallace, Charles G. Dawes, Alexander J. Hemphill, W. Emlen Roosevelt, and Henry F. Whitcomb.

Transfer Agent, Guaranty Trust Co., New York. Registrar, Central Trust Co., New York.

On the preferred stock of the old Allis-Chalmers Co., 1¾ per cent. paid July 25, 1901, and similar quarterly payments on the preferred were made at the periods named above until February 1, 1904, after which the payment of dividends on the old preferred was suspended.

The Bullock Electric Manufacturing Co. had outstanding $1,170,000 of 6 per cent. cumulative preferred stock. In February, 1914, a committee representing the holders of said stock arrived at an agreement with the Allis-Chalmers Manufacturing Co. whereby the stock was to be exchanged for 20- to 25-year 1st mortgage 6 per cent. bonds of the Bullock Electric Manufacturing Co. at the rate of $80 in bonds for each $100 of stock, all dividends on the stock up to January 1, 1914, to be paid at the rate of 7 per cent. per annum. The amount of the bonds is limited to $936,000.

The present company has no funded debt.

The earnings of the old company from 1901-02 to 1909-10, inclusive, were given in tabulated form in the MANUAL for 1913.

AMALGAMATED COPPER CO.

A corporation formed under the laws of New Jersey, April 27, 1899. The company acquired controlling interests in the Anaconda Copper Co., Parrot Silver & Copper Co., Washoe Copper Co., Colorado Smelting & Mining Co. and other companies. In 1901 acquired control of the Boston & Montana Consolidated Copper & Silver Mining Co. and the Butte & Boston Consolidated Mining Co. The entire capital stocks of the following were also owned: Washoe Copper Co., Trenton Mining & Development Co., Diamond Coal & Coke Co., Big Blackfoot Milling Co. In March, 1911, this company acquired the stock of the United Metals Selling Co., which company acted as selling agent for the product of the Anaconda and other subsidiaries of this company, and had an interest consisting of $4,000,000 stock of the International Smelting & Refining Co. In 1914 these interests were conveyed to the Anaconda Copper Co., as well as holdings of the stocks of the Greene-Cananea Copper and other companies.

In March, 1910, a plan was ratified whereby the Anaconda Copper Mining Co. increased its stock from $30,000,000 to $150,000,000, and took over the Boston & Montana, Butte Coalition and other companies. Under this plan, and the subsequent sales to the Aanconda of other properties and interests, the Amalgamated Copper Co. acquired additional stock of the Anaconda Co., owning in May, 1915, 3,327,937 shares thereof (of $25 par value), or $83,198,425. See separate statement of the Anaconda Co.

Under date of May 6, 1915, the directors of the Amalgamated Copper Co. announced that a special meeting would be held on June 7, 1915, at which the stockholders were to vote on dissolving the company. The plan to that end was that for each share of Amalgamated stock the holder should receive 2 shares (par $25) of Anaconda Copper Mining stock and about $3 in cash, and be allowed to subscribe at $25 per share for 1 share additional of Anaconda stock in respect to each 6 shares of Amalgamated stock held. This privilege was to accrue to stockholders of record May 17, 1915. The effect of the above will be to entirely eliminate the Amalgamated Co. as a holding concern for the Anaconda, and to make the latter the representative of all the properties and values of the two organizations.

In February, 1906, the stockholders received the further right to subscribe at par for $1,500,000 common and $4,000,000 preferred stock, issued for the acquisition of the Detroit City Gas Co. On August 1, 1909, a stock dividend of 10 per cent. on the common was paid; on November 1, 1909, 2½ per cent. in stock was paid, and in 1910, and subsequently, quarterly stock dividends of 2½ per cent. each have been paid at the same periods as the regular cash dividends on the common. In March, 1913, the authorized common stock was increased from $15,000,000 to $40,000,000.

Transfer Agents, Emerson McMillin & Co., 40 Wall street, New York. Registrar, Equitable Trust Co., New York.

The first quarterly dividend of 1¾ per cent. on the preferred stock was paid December 1, 1901. Dividends at that rate have since been regularly paid on the preferred in February, May, August and November. The February, 1913, dividend on the preferred was 2 per cent., that rate being declared for this occasion in order that the quarterly dividends should be out of earnings for quarters ending with January, April, July and October instead of March, June, September and December. The amount and periods for payment of dividends on the preferred are otherwise unchanged. The initial dividend on the common stock was 1½ per cent. semi-annual, paid November 1, 1904, and 1½ per cent. was also paid in May, 1905. In August, 1905, 1 per cent. quarterly was paid on the common and the same rate was paid in November, 1905, February, 1906, and May, 1906. In August, 1906, 1¼ per cent. was paid, which continued to be the quarterly rate, the dividend periods being February (1) May, August and November. In August, 1907, the rate was increased to 1½ per cent. quarterly, or 6 per cent. per annum; in August, 1908, the quarterly rate was further increased to 1¾ per cent. or 7 per cent., per annum, and in February, 1909, to 2 per cent., placing the common on an 8 per cent., annual basis. In August, 1909, an extra cash dividend of 1 per cent. on the common was paid. A further increase was made in May, 1910, to 2½ per cent. quarterly, or 10 per cent. per annum, which has since been the regular rate. See above regarding stock dividends on the common.

AMERICAN SUGAR REFINING CO.

A corporation formed under the laws of New Jersey, January 10, 1891, to succeed the Sugar Refineries Co., or Sugar Trust, which was formed in 1887, a number of the sugar refineries in the United States being taken into the Trust and its certificates issued to represent the value of their plants. The capital of the Trust represented in certificates was $50,000,000. The company has refineries located at Boston, New York, Jersey City, Philadelphia and New Orleans and Port Chalamette, La. It controls the Brooklyn Cooperage Co., and owns one-quarter of the stock of the National Sugar Refining Co. It was also interested in various beet sugar companies, but has disposed of various holdings of that character.

The authorized stock was originally $25,000,000 common and $25,000,000 preferred. In 1892 it was increased to $37,500,000 of each class and in 1901 to $45,000,000, when the stockholders were given the right to subscribe for one share of new stock for each five shares of old held by them.

The preferred stock is 7 per cent., cumulative. Stock is transferred at the office of the company, 117 Wall street, New York. Registrar, Central Trust Co., New York.

The company has paid 7 per cent. per annum on the preferred stock since the reorganization. On a part of the preferred stock the dividends were semi-annual, 3½ per cent. each, January and July, and on part quarterly, 1¾ per cent. each, in January, April, July and October, but the distinction has been abolished and dividends on all the preferred are now paid quarterly at the periods before named.

On the common stock the company paid 4 per cent. half yearly from July, 1891, until October, 1892, when rate was raised to 2½ per cent. quarterly. In April, 1893, 3 per cent. quarterly and an extra dividend of 10 per cent. was paid, after which it was 3 per cent. quarterly, until April, 1900, when the rate was reduced to 1¾ per cent. In July, 1900, 1½ per cent. was also paid. The October, 1900, dividend was 1¾ per cent., or 7 per cent. per annum, and that rate has since been maintained. Dividends on the common are paid quarterly, in January, (2) April, July and October.

For a detailed account of the old Trust and a record of the present company's early history see the MANUAL for 1903.

AMERICAN TELEPHONE & TELEGRAPH CO.

A corporation formed under the laws of New York in 1885. The company was organized by the American Bell Telephone Co., a Massachusetts corporation, to build and operate its long-distance telephone system. In March, 1900, the stockholders of the American Bell Telephone Co. voted to turn over to this company all its property and assets, including the stock it owned in operating telephone companies, the arrangement being that holders of the American Bell Telephone Co.'s stock, of which there was $25,886,300 outstanding, should exchange it for stock of this company, two shares of which were given for one share of American Bell Telephone Co. stock. The holders of the latter also had the right to subscribe at par for one share additional of this company's stock for every five shares held by them.

This company holds large interests, usually a control, in the stocks of the telephone companies which operate under its licenses in all parts of the country. The balance sheet of December 31, 1914, gave the stocks and bonds of the companies associated with or controlled by this company as $435,727,228 and advances to them as $52,302,180, making a total investment therein of $488,029,408.

The Western Electric Co., which is controlled by this company, manufactures telephones and telephone supplies, and has factories in New York and Chicago. The American Telephone & Telegraph Co. also has a minority interest in the Bell Telephone Co. of Canada.

In 1909 this company acquired a substantial interest in the Western Union Telegraph Co. In July, 1913, suit for violation of the Anti-Trust Law was brought against the company by the United States Government and a number of its subsidiaries. In October, 1913, an arrangement was voluntarily made by the company with the Government, under which it is to purchase no

additional independent properties, and is to furnish toll connections to independent companies. Furthermore, the company's interest in the Western Union Telegraph Co. was to be segregated. In pursuance of the above, the American Telephone & Telegraph Co.'s holdings of Western Union stock, amounting to about $30,000,000, were sold in March, 1914, to a syndicate which offered the same for subscription by the other stockholders of the Western Union. See statement of the latter company.

The two latter increases were made to provide for the conversion of convertible bonds. In March, 1910, a further increase in the authorized stock to $500,000,000 was ratified to provide for future requirements. The stock issued is given as of December 31, 1914.

Stockholders of record June 30, 1911, received the right to subscribe for new stock at par to the extent of 20 per cent. of their holdings. These rights called for $55,086,400 of new stock and increased the outstanding stock correspondingly. Stock is transferred at the offices of the treasurer, Boston and New York, and at the Illinois Trust & Savings Bank, Chicago. Registrars, Old Colony Trust Co., Boston; Bankers Trust Co., New York; Northern Trust Co., Chicago.

THE AMERICAN TOBACCO CO.

A corporation formed under the laws of New Jersey, October 19, 1904, being a merger of the American Tobacco Co., Consolidated Tobacco Co. and Continental Tobacco Co.

This company acquired the plants, factories, property and trade-marks of the merged companies. It owned a majority of the stock of the American Cigar Co. and of the common stock of the American Snuff Co., the American Cigar Co. owning a majority of the common stock of the Havana Tobacco Co. and common stock of the American Stogie Co. A majority of the stock of the original P. Lorillard Co. was also owned. Under an agreement made in 1902 between the old American Tobacco Co. and the Imperial Tobacco Co., Limited, of Great Britain, the export business of both was transferred to the British American Tobacco Co., Limited, a majority of whose stock was owned by The American Tobacco Co. Other corporations a majority of whose stock was owned included The Conley Foil Co.; MacAndrews & Forbes Co.; Corporation of United Cigar Stores Co., and Porto Rican American Tobacco Co.

Suit was brought against The American Tobacco Co. and various subsidiary companies by the United States Government (29 individual officers and directors being included as defendants) for violation of the Anti-Trust Act of 1890. On May 29, 1911, the United States Supreme Court decided the case against the company and the other defendants and ordered its dissolution under direction of the United States Circuit Court in New York. The latter Court on November 16, 1911, approved by decree a plan of disintegration under which control of the different companies was distributed and the business divided among fourteen separate and independent organizations: The American Tobacco Co.; R. J. Reynolds Co.; P. Lorillard Co.; Liggett & Myers Tobacco Co.; American Snuff Co.; Geo. W. Helme Co.; Weyman-Bruton Co.; Conley Foil Co.; Johnston Tin Foil & Metal Co.; MacAndrews & Forbes Co.; J. S. Young Co.; United Cigar Stores Co.; Porto Rican-American Tobacco Co. and British American Tobacco Co., Limited. Separate statements of these companies are given in this edition of the MANUAL.

The American Tobacco Co. at the time the disintegration plan became effective had outstanding $40,242,400 common stock (which the plan left undisturbed as to amount); $78,689,100 6 per cent., cumulative, non-voting preferred stock; $52,882,650 6 per cent. debentures, due October, 1944, April and October; $47,844,200 4 per cent. debentures, due August, 1951, February and August, and $3,509,900 Consolidated Tobacco Co. 4 per cent. debentures, due 1951.

The provisions of the plan affecting The American Tobacco Co.'s securities were as follows:

		Received					
For each $1,000 par value	Cash	P. Lorillard 7 p.c.b'ds	Liggett & Myers 7 p.c.b'ds	P. Lorillard 6 p.c.b'ds	Liggett & Myers 6 p.c.b'ds	P.Lorillard pfd. stock	Liggett & Myers pfd. stock

Am. Tobacco Co. pref. (for ⅕ thereof).....	...	.....	.....	.....	.....	$137.83	$195.50

Under the above the bonds of The American Tobacco Co. were retired, a period of three years being allowed to complete the exchanges. All but a small portion of the bonds have been exchanged. The two-thirds of The American Tobacco old preferred stock not exchanged for P. Lorillard and Liggett & Myers Tobacco preferred stocks was to be exchanged for an equal amount of new 6 per cent. cumulative preferred stock of The American Tobacco Co., with voting power attaching thereto.

Under the plan the common stockholders of The American Tobacco Co. were entitled to purchase at par in cash the $21,496,400 common stock of the Liggett & Myers Tobacco Co. and $15,155,600 common stock of the P. Lorillard Co. This privilege accrued to the common stockholders of record December 1, 1911, and was in respect to each share of The American Tobacco common to buy 214,964-401,824ths of a share of Liggett & Myers common and 151,556-401,824ths of a share of P. Lorillard common.

The American Tobacco Co. common stockholders of record December 1, 1911, received on each share the following fractions of a share in the stocks of the former subsidiary companies' stocks, all of which the ordinary or common shares are £1 par value:

Am. Snuff Co., common	75,908-401,824ths	Johnston Tin Foil & Metal Co.	1,800-401,824ths
" " pfd	23,764-401,824 "	R. J. Reynolds Tobacco Co.	50,000-401,824 "
Geo. W. Helme Co.	27,602-401,824 "	Corporation of United Cigar Stores	60,000-401,284 "
Weyman-Bruton Co.	27,602-401,824 "	Porto Rican-Am. Tobacco	13,236-401,824 "
MacAndrews & Forbes Co. com.	21,129-401,824 "	British Am. Tobacco Co., Ltd	5 and 270,892-401,824 "
J. S. Young Co., common	7,043-401,824 "		
Conley Foil Co.	4,950-401,824 "		

The American Tobacco Co., under the plan, was to dispose of or distribute before January 1, 1915, its holdings of certain other securities, comprising British American Tobacco Co., Limited, preference shares; Imperial Tobacco Co., Limited, of Great Britain, ordinary shares; Corporation of United Cigar Stores bonds and MacAndrews & Forbes Co. preferred stock. While it held them it was prohibited from voting the stocks in question.

The distribution involved investment securities of the book value of $34,627,248. The American Tobacco Co. also sold to the P. Lorillard Co. and Liggett & Myers Tobacco Co. $58,639,011 of assets and $56,300,989 in trade marks, brands, etc. See above regarding the disposal of the securities received for the sales in question. Also see statements of the P. Lorillard Co. and Liggett & Myers Tobacco Co. in this edition of the MANUAL.

Other important details of the plan may be summarized as follows:

The American Tobacco Co. owned approximately two-thirds of the $7,525,000 stock of the R. J. Reynolds Tobacco Co. This stock it distributed to its common stockholders.

The American Tobacco Co. held nearly half of the stock of the American Snuff Co. There were organized two new snuff companies: the Geo. W. Helme Co. and the Weyman-Bruton Co. The American Snuff Co. conveyed to these two companies manufacturing assets, consisting of factories and brands, so that the resulting division of the snuff business would be in value of sales as follows:

	Per Cent.
American Snuff Co.	35.55
Geo. W. Helme Co.	28.95
Weyman-Bruton Co.	27.68

Each of the two vendee companies paid for the property and business conveyed to it by the issue of $4,000,000 at par of 7 per cent. voting preferred stock and $4,000,000 at par of common stock, all of which went to the American Snuff Co., which distributed them to its common stockholders as a dividend, charging it to surplus account, and offered to its preferred stockholders proportionately the 7 per cent. preferred stocks of the new companies in exchange for the preferred stock of the American Snuff Co. at par. See statements of the American Snuff Co., Weyman-Bruton Co. and Geo. W. Helme Co. The American Tobacco Co., being a holder of the common stock of the American Snuff Co., participated in the distribution, and in turn distributed the common stocks it received of the Helme Co. and the Weyman-Bruton Co., together with its holdings of American Snuff common and preferred stock to its common stockholders.

The Conley Foil Co. owned all the stock and bonds of the Johnston Tin Foil & Metal Co. The Conley Foil Co. cancelled the bonds and distributed its holdings of the stock of the other company to its stockholders, and the holders of American Tobacco common received the stock which came to The American Tobacco Co. as owner of more than half the Conley Foil stock.

The MacAndrews & Forbes Co., manufacturing licorice paste, was divided, conveying its Baltimore business to the J. S. Young Co. for $1,000,000 common and $1,000,000 preferred stock of that company. The $1,000,000 common it distributed to its common stockholders, including The American Tobacco Co., which owned more than half the stock of the MacAndrews & Forbes Co., and which distributed the stock thus received, as well as its original holdings of MacAndrews & Forbes stock. The $1,000,000 preferred stock of the J. S. Young Co. is to have no voting power as long as it is held by the MacAndrews & Forbes Co., and the latter is to offer it in exchange for its own preferred stock, which when so exchanged shall be cancelled.

The American Cigar Co. was required to part with its interest in the American Stogie Co. and the American Stogie Co. itself was to be dissolved. It sold to The American Tobacco Co. for cash all its interest in the Porto Rican-American Tobacco Co., and The American Tobacco Co.

distributed the stock so acquired, together with its original stock in the Porto Rican-American Tobacco Co., to its common stockholders.

The American Cigar Co. sold a substantial part of its domestic business carried on under the name of the Federal Cigar Co. to The American Tobacco Co. for cash. The American Tobacco Co. conveyed this business to the P. Lorillard Co. for securities. See statement of American Cigar Co., the control of which remains vested in the American Tobacco Co.

The contracts which bound the Imperial Tobacco Co. of Great Britain, The American Tobacco Co., the American Cigar Co. and the British-American Tobacco Co., Limited, and forbid competition, have been terminated. The shares of the British-American Co., ordinary stock held by The American Tobacco Co., were distributed to its common stockholders. See statement of British-American Tobacco Co., Limited. American Tobacco Co. common stockholders of record April 1, 1914, received April 20, 1914, a distribution of £360,729 Restricted B. deferred ordinary shares, par £1 each, of the Imperial Tobacco Co., Limited, of Great Britain, the distribution amounting to 360.729-401.824ths of a share (about 9-10) on each share of American Tobacco common.

The American Tobacco Co. owned two-thirds of the stock of the Corporation of United Cigar Stores Co. It was required to distribute these shares to the common stockholders of The American Tobacco Co. See statement of United Cigar Stores Co. of America.

Under the plan The American Tobacco Co. was left in possession of the following tobacco business establishments or the stocks of the companies owning same:

Blackwell's Durham Tobacco Co., Durham, N. C. Smoking tobacco.
Butler-Butler, Inc., New York. Cigarettes.
F. F. Adams Tobacco Co., Milwaukee. Smoking tobacco.
Nashville Tobacco Works, Nashville, Tenn. Smoking and plug tobacco.
R. A. Patterson Tobacco Co., Richmond, Va. Smoking and plug tobacco.
F. R. Penn Tobacco Co., Reidsville, N. C. Smoking and plug tobacco.

" " Baltimore Factory, Baltimore. Little cigars.
" " Duke, New York branch. Smoking and fine-cut tobacco.

" " Mayo Branch, Richmond, Va. Smoking and plug tobacco.
" " Penn Street Branch, Brooklyn. Cigarettes.

The properties retained made during 1910 sales of a value of $65,622,948; their net manufacturing earnings in 1910 were $11,369,809; earnings from investments, $3,160,753; total net earnings in 1910, $14,530,563. In the division of the tobacco business of the United States under the plan of disintegration they comprised, according to volume and value, the following percentages of the totals in the several branches of the trade:

	Volume Per Cent.	Value Per Cent.
Cigarettes	37.11	33.15
Smoking tobacco	33.08	40.53
Plug tobacco	25.32	22.98
Fine-cut tobacco	9.94	13.52

The preferred stock is 6 per cent., cumulative, with a preference as to assets in case of a dissolution, and has full voting powers. The preferred stock prior to the disintegration was $78,689,100 and was 6 per cent., cumulative, without voting power, except for increasing or decreasing the capital stock, dissolving the corporation, or passing upon other matters on which the statute expressly gave the preferred stock power to vote. Under the disintegration plan one-third in amount was retirable in exchange for preferred stocks of the P. Lorillard Co. and Liggett & Myers Tobacco Co., the remaining two-thirds being exchanged for new preferred stock of this company, *with* voting power. The total of the new preferred, when the exchange is completed, will be $52,459,400. The amount issued as given above represents the preferred stock outstanding at the end of 1914 as the result of the exchange. In January, 1915, there remained outstanding $905,400 of the old preferred which had not been exchanged.

The September, 1911, dividend was, however, suspended in consequence of the pending readjustment of the company's affairs, and no further payment on the common was made until 2½ per cent. was paid in June, 1912. In September, 1912, paid 2½ per cent. regular and made a distribution of $20 per share from disposition of securities ordered by the Court, together with 2.986 per cent. in stock of the American Machine & Foundry Co. In December, 1912, paid 2½ per cent. regular. On March 1, 1913, paid 5 per cent. regular and distributed $15 per share more from disposition of securities. In December, 1914, dividend was, however, 5 per cent. in cash, and 5 per cent. cash was also paid March 1, 1915.

Trustee, Equitable Trust Co., New York. The 5 per cent. notes were sold in 1914 and were $3,000,000 in amount, the company having called $1,000,000 of same for payment in February, 1915.

The terms on which control of the Fore River Shipbuilding plant was acquired included the creation of a 1st lien, 5 per cent. mortgage, for $600,000 by the new subsidiary company which took over the property, and a 1st mortgage 5 per cent. issue for $750,000, the same to be guaranteed, principal and interest, by the Bethlehem Steel Co.

The Prospect Park & Coney Island Railroad Co., owned by the Long Island Railroad Co., was leased in 1899.

The company owns all the stock of the Brooklyn Heights Railroad Co., which leases the Brooklyn City Railroad Co. It also owns or controls all the stocks of the Brooklyn, Queens County & Suburban Railroad Co., Coney Island & Gravesend Railway Co., Transit Development Co., New York Municipal Railway Corporation, and 50 per cent. of the capital stock of the Bridge Operating Co., besides all but a small portion of the capital stock of the American Railway Traffic Co., the South Brooklyn Railway Co., The Coney Island & Brooklyn Railroad Co., New York & Coney Island Railroad Co., Prospect Park & South Brooklyn Railroad Co., the preferred and common stock of the Nassau Electric Railroad Co. and of the New York Consolidated Railroad Co. Under arrangement with the City of New York the company operates its cars over the Williamsburg Bridge to Delancey Street, Manhattan.

In March and April, 1911, this company made application to the City of New York to operate new subway lines, and in July the City Board of Estimate voted to award to the Brooklyn Rapid Transit the operation of certain lines in Manhattan, with a Brooklyn connection and subway and elevated lines in the different Boroughs of Greater New York. In May, 1912, a supplementary program was proposed by which this company was to share with the Interborough Rapid Transit Co. in a so-called "dual system" involving a division of the new lines between the two companies. The plan involves the construction of additional tracks by the Brooklyn Rapid Transit and its subsidiaries to the extent of 19.86 miles, the subways and tunnels being 70.58 miles and elevated extensions 73.03 miles, making with the existing rapid transit lines included in the unified system 269 miles to be operated by this company. The New York Municipal Railway Corporation was incorporated September 27, 1912, to operate the enlarged system contemplated by the agreement with the City and to construct such lines as were to be built under private ownership. Control of the New York Municipal Railway Corporation is to reside with the New York Consolidated Railroad Co., a subsidiary of the Brooklyn Rapid Transit Co.

On November 30, 1912, the Brooklyn Union Elevated Railroad Co. was merged with the Sea Beach Railway Co. and the Canarsie Railroad Co. under title of the New York Consolidated Railroad Co., this step being taken with a view to the extensions of these properties, which are to be operated in connection with the new City owned rapid transit lines.

In December, 1913, authority was obtained for the purchase of a controlling interest in the stock of the Coney Island & Brooklyn Railroad Co., by the Coney Island & Gravesend Railroad Co., one of the subsidiaries of the Brooklyn Rapid Transit Co.

The mileage of the various properties owned, controlled and leased, is as follows:

	Miles		Miles
Brooklyn Heights Railroad	2.13	Prospect Park & Coney Island Railroad (leased)	9.55
Brooklyn City Railroad (leased)	105.60	Trackage on N. Y. & Brooklyn Bridge	3.56
Brooklyn, Queens Co. & Sub. Railroad	29.71	Trackage on Williamsburgh Bridge	3.38
Nassau Electric Railroad	67.24	New York Municipal Railway	1.21
New York Consolidated Railroad	46.33		
Coney Island & Brooklyn Railroad	22.89		
Coney Island & Gravesend Railway	3.95	Total	295.55

Of the above mileage 144.17 miles of surface lines and 29.24 miles of elevated lines are controlled by stock ownership, 115.23 miles of surface roads are under leases for 999 years and 3.54 miles of surface and 4.61 of elevated lines under special leases. The total comprises 262.95 miles of surface and 33.86 miles of elevated lines. There are in the system 286.88 miles of second track, and the aggregate track mileage of the system is 667.33 miles.

Included in the different properties are three power stations in active operation and four in reserve, and 4,551 cars of all descriptions, together with 7 electric locomotives.

CALUMET & HECLA MINING CO.

A Michigan corporation which, in 1900, renewed its charter for thirty years from April 13, 1901. It was originally formed in 1871 by consolidation of the Calumet, Hecla, Portland and Scott Copper Companies.

This company is proprietor of one of the notable copper-producing properties in the world. Its mines are situated at Calumet and Red Jacket, Houghton County, Michigan. It owns several thousand acres of land with stamp mills and other accessories, including three systems of water works. It has a smelting plant at Hubbell (Torch Lake), Mich., and another at Black Rock, near Buffalo, N. Y. It owns the Hecla & Torch Lake Railroad, with 20 miles of tracks, serving the various plants, and a fleet of lake steamers and barges.

The company acquired a controlling interest in the La Salle Copper Co., which in January, 1907, took over certain lands belonging to the Calumet & Hecla and purchased the properties of the Tecumseh and other copper companies. This company and its subsidiaries also acquired interests in the Allouez Mining Co., the Osceola Consolidated Mining Co., the Centennial Copper Mining Co., White Pine Copper Co. and others.

In January, 1911, a plan was submitted for merging this company and its subsidiary and controlled companies. The plan provided for the formation of a new company under the laws of Michigan, with an authorised capital stock of $10,000,000, par value $25. Of the new stock $8,434,825, or 337,393 shares, were to be issued in exchange for the stocks of the various companies or in payment for their property. The different companies included under the plan were as follows: Calumet & Hecla Mining Co., Seneca Mining Co., Ahmeek Mining Co., Allouez Mining Co., Osceola Consolidated Mining Co., Centennial Copper Mining Co., Tamarack Mining Co., Laurium Mining Co., La Salle Copper Co., Superior Copper Co. Property to be purchased: Isle Royale Copper Co., Gratiot Mining Co.

Opposition developed to this plan on the part of minority interests in some of the companies included thereunder. In October, 1911, the management of the Calumet & Hecla formally abandoned the merger. The details of the plan are stated in full in the MANUAL for 1911.

CHICAGO RAILWAYS CO.

A corporation formed under the laws of Illinois in October, 1903. In pursuance of a plan dated October 15, 1907, for the reorganization of the Chicago Union Traction Co. this company on January 25, 1908, acquired at foreclosure sale the property of that organization, comprising the lines of the North Chicago Street Railroad Co. and the West Chicago Street Railroad Co. and their subsidiary companies. See statement of the Chicago Union Traction Co. in the MANUAL for 1907.

The length of the lines acquired was 308 miles of electric railways, in the northern and western divisions of Chicago and the downtown business district. In December, 1910, the company purchased 128 miles of tracks, being the portion of the Chicago Consolidated Traction Co. within the City limits of Chicago, the lines outside the City being taken over by a separate and distinct company, the County Traction Co. The present system comprises 485 miles of single track.

In the latter part of 1913 an agreement was entered into for the unification of operations of this company's lines and those of the Chicago City Railway Co.

For an account of the Chicago Consolidated Traction Co. see its statement in the MANUAL for 1910.

The Chicago Union Traction Co. and its constituent companies, the North Chicago and West Chicago Street Railroads, were placed in the hands of Receivers in April, 1903. The statement of that company in the MANUAL for 1907 gives a full account of the ensuing litigation and of the negotiations with the municipality.

In February, 1907, the City Council of Chicago passed an ordinance involving a settlement of disputes with the street railways and providing for a reorganization of the Chicago Union Traction Co. This ordinance was vetoed but was passed over the Mayor's veto, and at the city election, April 2, 1907, was ratified by the voters. The franchises granted expire February 1, 1927. The ordinance provided that in three years the properties should be freed from all the old liens, that the valuation of the roads should be placed at approximately $30,500,000, the City to have the right to purchase the roads at such valuation, plus amounts expended for reconstruction or extensions, including the building of subways. Outlays for such purposes are made only under the supervision of a board of engineers. In accepting the ordinance the company waived all former grants and franchises and agreed to universal 5 cent fares and transfers, and of the surplus earnings, after deductions for expenses and charges and certain allowances to the company, the City is to receive 55 per cent. and the company 45 per cent.

Under the terms of a unification ordinance which went into effect February 1, 1914, the properties of this company in the City of Chicago and those of the Chicago City Railway Co. and its connecting lines are operated under the title of the Chicago Surface Lines, the net earnings being divisible so that the Chicago Railways Co. for the two years ending January 31, 1916, will receive 59 per cent. of the net income and thereafter 60 per cent. of same. The control is exercised by a Board of Operation, on which this company is represented by four members and the Chicago City Railway by three. The Board consists of: Chairman, H. A. Blair; L. A. Busby, H. B. Riley, John M. Roach, Charles C. Adsit, Wallace Heckman and Frank O. Wetmore.

See MANUAL for 1911 regarding details of the reorganization and the terms for the exchange of the Chicago Union Traction's securities for those of the new company.
